

Press release from Electrocompaniet, April 2020:

Introducing the ECI 6 MKII Integrated Amplifier

This month, Electrocompaniet is launching a new integrated amplifier in its Classic Line series.

The ECI 6 MKII is a powerful integrated amplifier, equipped with 4 analogue inputs. The new ECI 6 MKII offers 2 x 125 Watts and is based on the successful ECI 5 MK II. To enhance it, we have equipped the ECI 6 MKII with an even better power supply and a more sophisticated preamplifier module. As a result, we can offer you an extremely substantial and dynamic amplifier, capable of controlling a wide range of speakers in the market.

Analogue sources can be connected to one balanced (XLR) stereo input and three single-ended

(RCA) stereo inputs. Two preamplifier outputs, one balanced and one single ended, makes the ECI 6 MKII ready for future expansions.

The input stage is built from discrete circuits running in class A with zero feedback. The output stage runs with moderate amounts of negative feedback, carefully balanced between good bass extension and control, a detailed open midrange and a warm detailed top. All to ensure that the ECI 6 MKII will reproduce your favorite music the way it was recorded.

The ECI 6 MKII is upgradable to ECI 6 DX MKII.

You don't need choose between high-end and multi-room, or flexibility and audio quality. It is all there. It wouldn't be Electrocompaniet if it wasn't.

Electrocompaniet - Our 47 years of legendary Hi-Fi products from Norway gives us a unique perspective. Electrocompaniet was established in 1973, and we are the leading Norwegian manufacturer of high quality Hi-Fi equipment. Our products are loved by professionals, audiophiles, press and musicians alike, and once experienced, the sound of Electrocompaniet says it all. Our product range consists of CD-players, DACs, amplifiers and speakers available on both the High-End Classic line and Lifestyle EC Living line. Electrocompaniet products are made in Norway and sold by authorized distributors and dealers in more than 50 countries.

See technical specifications for products attached.
