POWER TOOL SERIES 

**Power Tool Series for the Contractor**

---

**Exceptional features and superior quality, Thin Kerf**

TENRYU's comprehensive line of blades for portable and stationary power tools. More variety, better quality and greater value. Sizes range from 4" to 12" for most types of applications. The TENRYU **PT SERIES** goes on to include thin kerf wood cutting blades designed especially for smooth cuts on miter and slide-compound.

**BLADE FEATURES:**

- Fully hardened, expertly tensioned tool steel bodies absorb impact, remain flat and true, and resist excess heat build-up.
- High-grade, C-3, fine-grain tungsten carbide tips resist erosion for extended blade life.
- Aggressive rake angles for maximum cutting speed and efficiency.
- Each tip is precision honed on all four exposed surfaces. This minimizes micro-chipping along the sharp edge of the blade and results in a sharper, longer-lasting edge.

- Thin kerf for less waste and lighter cutting performance (reduced feed pressure).
- Inserted tooth design on some models greatly increases the body-to-tip braze area for greater support and tip strength.
- Expansion slots and/or variable pitch gullets keep blade cool under stressful work loads.
- Can be resharpened for extended blade life.

**POWER TOOL SERIES - Primarily for Portable Saws and Table Saws**

MODEL #	DIA.	TEETH	ARBOR	GRIND	KERF	RAKE	APPLICATION
PT-10024	4"	24	20mm	<a href="#">ATAF</a>	.055"	18	For woodworking on Makita 4" trim saw.
PT-10006-1	4"	6	22mm	<a href="#">FTG</a>	.157"	20	For very clean and accurate biscuit slots in all woods.
PT-10006-2	4"	6	22mm	<a href="#">ATAFR</a>	.157"	25/-15	For exceptionally clean and smooth biscuit slots in all woods.
PT-11036	4-3/8"	36	20mm	<a href="#">ATAF</a>	.063"	15	For fine trim work on corded Makita trim saws.
PT-11536	4-1/2"	36	3/8"	<a href="#">ATAF</a>	.063"	15	For clean and easy trim work on the Porter Cable trim saw.

PT-14036	5-1/2"	36	5/8"/ 1/2"	<a href="#">ATAF</a>	.063"	15	For fine and easy trim work on Makita or Skil circular saws.
PT-15236	6"	36	1/2"	<a href="#">ATAF</a>	.063"	15	For excellent results on 6" Porter Cable corded or cordless saws.
PT-16524	6-1/2"	24	5/8"KO	<a href="#">ATB</a>	.079"	20	For woodworking on 6-1/2" corded saws. FAST!
PT-16524-T	6-1/2"	24	5/8"KO	<a href="#">ATAF</a>	.059"	20	For very fast and easy work on 6-1/2" corded or cordless saws.
PT-16540	6-1/2"	40	5/8"KO	<a href="#">ATB</a>	.079"	20	For finer cuts on corded 6-1/2" saws.
PT-16540-CR	6-1/2"	40	BEVEL	<a href="#">ATB</a>	.063"	18	For use on the CRAIN JAMB SAW for carpet/flooring installers.
PT-16540-T	6-1/2"	40	5/8"KO	<a href="#">ATB</a>	.063"	18	ULTRA-THIN kerf for fine work on corded or cordless saws.
PT-16552-T	6-1/2"	52	5/8"KO	<a href="#">ATAF</a>	.063"	18	ULTRA-THIN kerf for SUPER clean work on 6-1/2" saws.
PT-18516B	7-1/4"	16	5/8"KO	<a href="#">ATB</a>	.073"	27	Our super fast framing and ripping blade with INSERTED teeth.
PT-18520B	7-1/4"	20	5/8"KO	<a href="#">ATB</a>	.073"	27	Fast and furious 20 tooth INSERTED TOOTH blade for framers.
PT-18524AM	7-1/4"	24	5/8"KO	<a href="#">ATB</a>	.070"	20	24 tooth contractor blade. Fast with long cutting life.
PT-18524P	7-1/4"	24	5/8"KO	<a href="#">ATB</a>	.070"	20	BULLFROG. The choice when cutting pressure treated or wet lumber. COATED.
PT-18524P3	7-1/4"	24	5/8"KO	<a href="#">ATB</a>	.070"	20	3-Pack BULLFROG Blades
PT-18524V	7-1/4"	24	5/8"KO	<a href="#">ATB</a>	.070"	20	CITATION. The unique VARIABLE PITCH framing blade for FAST, smooth cutting.

PT-18524V3	7-1/4"	24	5/8"KO	<a href="#">ATB</a>	.070"	20	3-Pack CITATION Blades
PT-18540	7-1/4"	40	5/8"KO	<a href="#">ATB</a>	.073"	27	Spectacular INSERTED TOOTH finish blade. Great performance.
PT-18540B	7-1/4"	40	5/8"KO	<a href="#">ATAF</a>	.063"	27	ULTRA-THIN kerf for finish cross-cutting. Bulk packaged.
PT-18540-T	7-1/4"	40	5/8"KO	<a href="#">ATB</a>	.063"	18	ULTRA-THIN blade for finish work on circular or trim saws.
PT-18552-T	7-1/4"	52	5/8"KO	<a href="#">ATAF</a>	.063"	18	ULTRA-THIN, ultra-fine blade for trim work. For finest cuts.
PT-20360	8"	60	5/8"KO	<a href="#">ATAF</a>	.087"	5	A no-nonsense clean cutting 8" woodcutting blade. Also for Panel saws.
PT-21018	8-1/4"	18	5/8"KO	<a href="#">ATB</a>	.075"	25	Fast cutting for woodworking and ripping on table or circular saws. INSERTED TOOTH DESIGN.
PT-21040	8-1/4"	40	5/8"KO	<a href="#">ATB</a>	.079"	15	The tremendously popular 8-1/4" Power Tool Series blade. For table or portable saws.
PT-21060	8-1/4"	60	5/8"KO	<a href="#">ATAF</a>	.079"	12	For fine cuts in wood with a table saw or circular saw.
PT-26036	10-1/4"	36	5/8"KO	<a href="#">ATAF</a>	.079"	20	For woodworking on modified circular saws.

## POWER TOOL SERIES FOR MITER & SLIDE MITER SAWS

---

The "PT" Series blades for miter or slide miter saws range in sizes from 8-1/2" for the popular Hitachi through 12" diameters. 14" blades for older saws can be found on in our [Pro Series](#) for Wood. 15" miter saw blades are available in our [Miter-Pro Series](#).

NOTE: This series may also be used for crosscutting applications on table saws.

EACH BLADE FEATURES:

- Thin kerf design is easier on miter saw motors and brakes.
- Fully hardened, expertly tensioned tool steel bodies.
- Fine grain tungsten carbide tips with fine grit honing for keen edges.
- Excellent price/value

**POWER TOOL SERIES - For Miter or Slide Miter Saws**

MODEL #	DIA.	TEETH	ARBOR	GRIND	KERF	RAKE	APPLICATION
PT-21624	8-1/2"	24	5/8"	<a href="#">ATB</a>	.087"	15	A fast cutting blade for use on 8-1/2" saws in thick wood.
PT-21640	8-1/2"	40	5/8"	<a href="#">ATB</a>	.087"	15	A super blade for use on 8-1/2" saws in wood.
PT-21660-1	8-1/2"	60	5/8"	<a href="#">ATAF</a>	.079"	5	A super performer on 8-1/2" miter saws.
PT-21680	8-1/2"	80	5/8"	<a href="#">ATAF</a>	.087"	10	For extra-clean cuts in wood and thin products.
PT-23040	9"	40	5/8"	<a href="#">ATAF</a>	.087"	5	Our Power Tool Series blade for 9" miter or table saws.
PT-25540	10"	40	5/8"	<a href="#">ATB</a>	.083"	0	Used for miter or table saws.
PT-25550	10"	50	5/8"	<a href="#">ATAF</a>	.091"	15	UNINSERTED TEETH. For use on miter saws. Great value.
PT-25560	10"	60	5/8"	<a href="#">ATB</a>	.083"	0	Used for miter or slide miter saws.
