

L2E GPR Collision System

KECO's L2E is the most comprehensive glue pull repair system available to body shop technicians. This system includes the industry's best lifting tools, a powerful KECO shop light, and GPR tool cart. This the only option for those looking for a complete GPR solution.

Finish your repairs fast with minimal, if any, body filler.

Flat Finish Capability

The KECO L2E GPR System provides you with the tools required to achieve success throughout the entire repair continuum with speed

Level 2E System Toolset

Organization + Productivity = Efficiency

The complete shop system **ideal for technicians and shop owners** wanting the complete GPR solution ideal for **repairing damage throughout the repair continuum**, using as **little body filler** as possible and **preparing for paint quickly**

Rough Out Large Damage

K-Beam[®], K-Beam Jr.[®] with added height legs provide **double-action** pulls and the K-Bar executes leverage pulls that **move tons of metal FAST**

Small Detail Finish Correction

Robo Lifter and Precision Pulling Base **correct small and x-small damage with precise control** when combined with Dead Center[®] finishing tabs and Crease tabs

Lighting

KECO Shop Light **enhances the technician's ability** to see damage on clear coat and various paint colors to enable to place tabs for **pulls with accuracy and control**

Storage & Organization

KECOs GPR Cart, TabPrints organizer, along with the Z-Channel platform store glue gun, heat gun, thermometer, and glue to **keep tools and tabs clean and organized** in any shop

*Indicates Added Tool or Enhanced for 2022

How did a fast repair method get even faster?

Efficient Metal Flow

- Extended height legs & modular knockdowns - more efficient double-action metal flow
- ReCon-Robo - attacks both sides of the panel simultaneously
- Multiple 25mm straight centipedes & 300mm TabTrax - rocker panel and post moves
- Multiple curved 25mm Centipedes & Curved TabTrax - quarter/fender corrections
- 16-piece intermediate Crease Tabs - added moves in the repair continuum

Organization

- KECO TabPrints organizer
- 3rd Panel for added tool capacity
- Z-Channel accessory platform
- Glue gun nest
- Heat gun & Thermometer nest
- Glue cup holders
