

# FINISH GPR Collision System

KECO's Finish Glue Pull Repair System carries all the tools, tabs, and modularity to work towards flat finish GPR repairs. The Finish System makes up approximately half of the Repair Continuum, with all the tools, tabs, and accessories to finish out medium to small damage.

## Flat Finish Capability

The KECO Finish GPR System provides you with the tools required to achieve success with a flat finish repair

## Finish Toolset

Giving technicians the ability to repair medium to small damage to a flat finish

## Medium to Small Damage

K-Beam Jr. and Mini Slide Hamer provides quick metal movement. Robo lifter and Precision Pulling Base correct small detail damage. Modular Knockdown and Black Swan provide accurate and controlled knockdown work.

## Lighting

KECO Shop Light enhances the technician's ability to see damage on clear coat and various paint colors to enable to place tabs for pulls with accuracy and control

## Tab Selection

KECO Shop Light enhances the technician's ability to see damage on clear coat and various paint colors to enable to place tabs for pulls with accuracy and control

## Storage & Organization

KECO's GPR Cart, TabPrints organizer, along with the Z-Channel platform store glue gun, heat gun, thermometer, and glue to keep tools and tabs clean and organized in any shop
