

# GPR+ Collision Repair System

GPR+ is designed for Shops and Technicians currently utilizing the L2E GPR System. The GPR+ System adds on to your L2E to extend the repair system to correct damage further up the Repair Continuum. With the added tools the GPR+ System carries, technicians will be able to glue pull and push to paint with ease. This system is intended to complement glue pull repair and allow technicians to make more challenging repairs possible with the utmost efficiency.

## Flat Finish Capability

The KECO GPR+ Repair System provides you with the tools required to achieve success with a flat finish repair.

## GPR+ Toolset

The GPR+ Tool cart carries tools and components allowing you to manipulate intermediate to finite damage into a flat, paintless or push-to-paint finish. GPR intermediate and finish tabs are included for a complete set to address small damage

## Small Detail Finish Correction

Various sizes and tips of the GPR+ tools provides everything you need to work with damage from within the panel.

## Storage & Organization

KECO's GPR Cart, TabPrints organizer, along with the all-around platform **keep tools and tabs clean and organized** in any shop

## GPR+ Training

Take advantage of KECO's Master GPR Instructors with our 3 Day training class and curriculum designed with a hands-on approach in Oklahoma City. Contact us today or visit [kecotabs.com](http://kecotabs.com) and search 'Training'

**\$3,999 USD (Shop System)**
