

Product: Adhesive composition «Glexo Black»

Supplier: IE, Kalashnikov V. B.

SAFETY DATA SHEET

version 1.0

Revision Date: 12/19/2019

### **Section 1: Identification**

<b>1.1 product identification</b>	Adhesive composition «Glexo Black»
<b>1.2 Recommendations and product application limits</b>	The product is intended for use as an adhesive component for correcting defects on vehicle bodies PDR Technology
<b>1.3 Details of the supplier</b>	Individual entrepreneur Kalashnikov Vikentiy Borisovich 195257, St. Petersburg, Grazhdansky pr. 92,1,373
<b>Address:</b>	+7 (905) 285-05-35
<b>Phone:</b>	info@glexotools.com
<b>Email:</b>	
<b>1.4 The telephone number for emergency contact</b>	+7 (905) 285-05-35
<b>1.5 Contact person</b>	Kalashnikov Vikentiy Borisovich

### **Section 2: Hazards Identification**

#### **2.1 Classification of GHS material**

Chemical products, causing damage (necrosis) / skin irritation: Class 3

#### **2.2 Label elements**

*Symbol:* No

*Signal word:* No

#### **2.3 Other types of risk:**

No

### **Section 3: Composition/information on ingredients**

Chemical name (according to IUPAC):	Mixture
Chemical formula:	No
General characteristics of the composition:	The product is obtained by mixing and homogenization of several components

Components (IUPAC name)	№ CAS	Mass fraction, %	Hazard
Polymer 2-methylprop-1-ene-2-methylbut-1,3-diene	9010-85-9	63.89	No
Zinc oxide	1314-13-2	1.91	No
Sulfur	7704-34-9	0.56	No
Octadecanoic acid	57-11-4	0.64	No
Graphite	7782-42-5	31.89	No
Silicon	7440-21-3	1.11	No

#### **Section 4: First Aid Measures**

##### **4.1 Description of first aid measures**

###### **General information:**

Remove contaminated clothing. If necessary, show the doctor for a container, label and / or safety data sheet.

###### **4.2 Inhalation:**

Fresh air, heat, rest. If necessary, seek medical attention.

###### **4.3 Skin contact:**

Rinse with plenty of water. If irritation develops, seek medical attention.

###### **4.4 Eye contact:**

Rinse under running water at wide open canthus. Call for medical help.

###### **4.5 Ingestion:**

Drinking plenty of fluids, activated charcoal, saline laxative. If necessary, seek medical attention.

#### **Section 5: Fire-fighting measures**

##### **5.1 Suitable extinguishing media:**

Water with wetting agents, air-mechanical foam

##### **5.2 Specific hazards:**

In the combustion product may form combustion products: carbon oxides, nitrogen oxides, sulfur compounds and other compounds causing suffocation and toxic poisoning by inhalation of large concentrations

### **5.3 Special protective equipment:**

Wear self-contained breathing apparatus and protective suit

### **5.4 Additional Information:**

Not inhale gases released in a fire. Exposed water cooling tanks. Isolate contaminated water used for quenching; not allow to reach sewage or wastewater. Residues after a fire and contaminated water used to extinguish a fire, disposed according to regulations.

## ***Section 6: Accidental release measures***

### **6.1 Personal precautions, protective equipment and emergency procedures**

Use personal protective clothing. Avoid contact with skin, eyes and clothing. Do not inhale vapors of the product.

### **6.2 Preventive measures for environmental protection**

Do not allow to enter the ground / soil. Do not allow to enter drains / surface water / ground water.

### **6.3 Methods and materials for cleaning**

Mechanical removal

### **6.4 Reference to other sections**

Data on exposure controls / PPE and recycling are in sections 8 and 13.

## ***Section 7: Handling and storage***

### **7.1 Precautions for safe handling**

With proper storage and handling does not require the use of special measures. Sufficient ventilation / exhaust at the workplace and of the storage area. Do not eat, drink or smoke while working with the product. Before breaks and at the end of the work shift to wash your hands and / or face.

### **7.2 Conditions for safe storage, including any incompatibilities**

Separate from foods and animal feeds.

Store products recommended at ambient temperature from + 5 ° C to + 30 ° C and relative humidity not exceeding 80%.

Keep out of the reach of children, away from food, drug and cosmetic products.

Packaged products in transport containers can be stacked on the shelves.

Product: Adhesive composition «Glexo Black»  
Supplier: IE, Kalashnikov V. B.

SAFETY DATA SHEET  
version 1.0  
Revision Date: 12/19/2019

### 7.3 Specific end uses

Do not freeze!

## Section 8: Exposure controls/personal protection

### 8.1 Control parameters

When using this product on a regular basis working zone air analysis in accordance with national regulations.

### 8.2 Personal Protective Equipment

*Eye / face protection:*

Use safety glasses.

*Skin protection:*

Use protective gloves F739 standard, AS / NZS: 2161

Material: polychloroprene, nitrile rubber / nitrile latex

*Other protective equipment:*

When the use of protective clothing.

*Respiratory protection:*

In the case of aerosol formation: face mask supplied with combination filter ABEKP

### 8.3 Control of environmental impact

Do not allow to enter the ground / soil. Do not allow to enter drains / surface water / ground water.

## Section 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

Appearance	Solid plastic substance
Colour	The black
Smell	Typical for this type of product
Density, g / cm <sup>3</sup>	1.4

### 9.2 Other data

No

### ***Section 10: Stability and reactivity***

#### **10.1 Chemical stability**

The product is stable under normal storage and transportation conditions.

#### **10.2 Conditions to avoid**

Unknown

#### **10.3 Incompatible materials**

No

#### **10.4 Hazardous decomposition products**

In the case of prescribed / notes for storage and use of hazardous decomposition products of the material does not stand out.

### ***Section 11: Toxicological Information***

#### **11.1. Information on toxicological effects:**

Health hazard: No

### ***Section 12: Ecological informations***

#### **12.1. Toxicity:**

No

#### **12.2. Stability and degradability:**

Product components are not biodegradable.

#### **12.3. Bioaccumulation potential:**

No indication of bioaccumulation potential

#### **12.4. Mobility:**

Data not available

**12.5.** The results of evaluation of properties of PBT and vPvB:  
substance in the product does not meet the PBT / vPvB criteria

#### **12.6. Other adverse feedbacks:**

No

### **Section 13: Disposal consideration**

#### **13.1 Waste management methods**

Dispose of in accordance with applicable legislation

#### **Disposal of unpurified packaging and recommended cleaning agents**

Water. Not contaminated and empty containers from the product residue may be reused.

### **Section 14: Transport information**

#### **US DOT Classification**

In consumer packaging	Not classified as hazardous for transport regulations
Shipping name	
ID number	
Package certification code	

#### **Transporting waterway (IMDG)**

In consumer packaging	Not classified as hazardous for transport regulations
Shipping name	
Hazard class	
ID number	
Package certification code	

#### **Transportation by air (IATA)**

In consumer packaging	Not classified as hazardous for transport regulations
Shipping name	
Hazard class	
ID number	
Product name	

### **Section 15: Regulatory information**

TSCA:	Listed
Fire hazard:	No
Reactive hazard:	No
Pressure relief:	No
Acute health hazard:	No
Chronic health hazards:	No
Environmental hazards:	No

Product: Adhesive composition «Glexo Black»  
Supplier: IE, Kalashnikov V. B.

SAFETY DATA SHEET  
version 1.0  
Revision Date: 12/19/2019

Observe all rules in your country or region. The manufacturer of this product can not confirm all information in any country or region and this information can be changed without notice.

### ***Section 16: Other information***

#### **Acronyms:**

SDS - SAFETY DATA SHEET

GHS Globally Harmonized System of Classification and Labelling of Chemicals

IUPAC - International Union for Pure Applied Chemistry

CAS - Chemical Abstracts Service number.

LC50 - Lethal Concentration to 50% of a test population.

EC50 - Effective Concentration to 50% of a test population

Information in this MSDS relates only to specified products in compiled form and not necessarily valid in case the material is used in combination with other materials or in processes in unintended instructions for use. According to the supplier, this information is true and accurate on the date of registration of this safety data sheet. The responsibility of the consumer is to determine the conformity of products used in a variety of circumstances. Data from the safety data sheet do not prove the quality of products, but only instructions for the safe use of products. In the case of non-compliance with the precautions described in the safety data sheet, or misuse of the product, we are not responsible for the consequences.
