

Level 1 Glue Pull Repair System

The most value packed glue pull repair system available to body shop technicians today. This system includes all of the tools required to complete level 1 repairs requiring minimal body filler to finish. This kit handles medium to x-large damage with ease and precision.

Rough Out Capability

As you move through the entire continuum the Keco Level 1 GPR System provides you with the tools to rough out damage. This system contains all of the items you need to achieve basic glue pulls that will ultimately require additional work and body filler to finish.

(shop system) (portable kit)
SKU: 410-8382-110 // 410-8381-110

\$2,299 USD (Shop System)
\$1,999 USD (Portable Kit)

- **Level 1 Toolset** - Ideal for technicians looking to simply rough out damage that will ultimately need a filler for finishing
- **Medium to Large Damage** - K-Beam® and Slide Hammers provide the ability to make double-action pulls and the K-Bar performs leverage pulls that move tons of metal FAST
- **Knockdown & Blending** - JVF Body Hammers and Slappies are great for knocking down crowns and releasing tension while repairing damage
- **Tab Selection** - Includes medium sized crease tabs as well as large and x-large Centipede and Supertabs in all the most popular shapes, sizes, and materials
- **Storage & Organization** - Designated glue pull cart and tab organizer keeps tools and tabs clean and organized in your shop
