

Wireless Tablet Keyboard Case Manual

Overview

How to change the keyboard model?

Hold '**Fn**' and press '**Q**' for **iOS** mode.

Hold '**Fn**' and press '**W**' for **Android** mode.

Hold '**Fn**' and press '**E**' for **Window** mode.

Charging

Please charge at least 6 hours when you first time get this keyboard.

1. Move switch to the **“ON”** position, if power indicator is flashing **red/orange**, please charge the keyboard in time.
2. Insert the smaller end of the charging cable into the keyboard's **micro-USB charging port** and the larger end into your iPhone or iPad USB power adapter. Power indicator turns solid green when your keyboard is fully charged (note: normal charging time is **2 to 4** hours).

Connect to iOS Device

Step 1:

Flip **“OFF/ON”** to ON, Press **“Connect”** for 3 seconds.

The Bluetooth indicator light will begin to blink blue when done correctly.

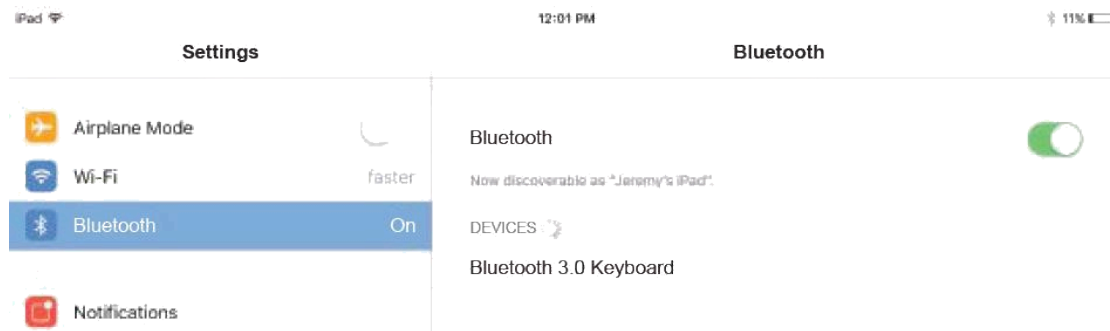

Step 2:

Turn ON iPad's Bluetooth and connect:

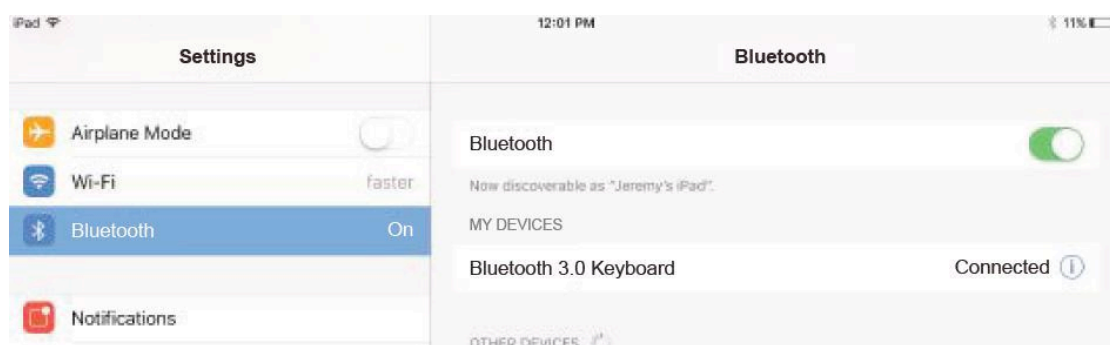

1. On iPad or iPhone, go to **Settings >**

Bluetooth

2. Turn on Bluetooth and search for **“Bluetooth 3.0 Keyboard”** in available devices.

3. Tap **“Bluetooth 3.0 Keyboard”** - the pairing process is complete after **“Connected”** appears (see photo below.)

After your successful first-time pairing, your iPad will automatically remember the keyboard. To connect again, please turn On Bluetooth on your iPad, and the keyboard. The device should automatically connect. If it does not connect, please tap it in the My Devices list to connect.

Desk/Exit	Searching	Input Switch	Select All
Copy	Paste	Cut	Previous
Play/Pause	Next	Volume-	Volume+
Screen Lock	Function Key		

Troubleshooting

If the keyboard is not working correctly, please check the following:

1.The Bluetooth function on the iPad (or other Bluetooth devices) is enabled.

2.The Bluetooth keyboard is within 33 feet. 3.The Bluetooth keyboard is charged.

If certain keys or commands begin to fail or work sporadically, please try restarting (or powering off and powering on) your iPad. This fixes 99% of these types of issues.

If a problem persists, please try the following steps:

- Delete all the Bluetooth devices on the iPad (or other Bluetooth devices.)
- Switch off the Bluetooth function on the iPad (or other Bluetooth devices.)

- Reboot the iPad (or other Bluetooth devices.)
- Switch Bluetooth on the iPad (or other Bluetooth devices) back on & pair again.
