

Vinyl Liner Pools

Vinyl Over Steps

Latham

Latham Vinyl Over Steps

Vinyl over steel or polymer steps are a beautiful match for your pool. The vinyl liner material matches the pool and envelops the steps completely, creating a sleek appearance. Choose from countless options of step designs, benches and ledges to create the ideal pool of your dreams.

Options

Latham vinyl over steps offer unlimited possibilities. Your Latham dealer can help you select from our best selling standard options or customize steps, seats, and ledges that work for your ideal backyard lifestyle.

A Step Above

Latham offers the most extensive vinyl over step program in the industry, with the widest selection of sizes and shapes. Our step technologies include vinyl over steel steps, as well as vinyl over polymer. Your Latham dealer will guide you through the process of selecting the best options for your taste and lifestyle, guaranteeing a perfect fit—for you and your pool.

Warranty

Latham vinyl covered step systems have a lifetime structural transferable warranty.

Finishing Touch

Steps with vinyl-over lining improve a pool's appearance, making it more cohesive. Latham's vinyl over step systems create a complete, seamless look—covering the entire pool surface up to the decking.

Ultra-Seam®

All Latham liners come with our exclusive Ultra-Seam technology—the strongest seam you'll never see. This patent-pending liner seaming technology not only provides stronger liner seams for your pool, it is also virtually invisible—something that standard welded liner seams simply cannot achieve.

Drop-in Steps and Benches

Are you looking to replace your current pool liner? Update your existing pool by adding drop-in steps, benches, or sunledges. These simple bolt-on features can provide additional entry points or stylish seating for your backyard oasis.

Once installed in their final position, vinyl over step pool liners may vary with minor imperfections in certain applications, such as small puckers or wrinkles in 90 degree corners. This will not detract from the overall look and performance as is normal with most vinyl-over features.
