SMALL SMART DISCREET

Smart thinking. NANO has arrived. Little lockers, doors and drawers will love NANO90.

NANO90 is the ideal keyless solution to upgrade and replace locks on lockers, cupboard doors and drawers. Fit the product in place of standard cam locks, NANO90 can be surface mounted or flush fitted for a really sleek look. Whether installed on lockers, mail boxes, courier drop boxes or medical cabinets, just simply enter a four digit code, lock and go!

Easy to install

# FUNCTIONS

Black option available

Private Function
This is the default function and is already pre-programmed in new locks. This function is used where the same code will be repeatedly used, e.g. an employee with the same locker/drawer in the workplace.

Public Function
In this function the KitLock operates with a single User Code. The user enters a personal four digit code, this locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for the next user. This function is used for short term, multiple occupancy applications, e.g. hot desking in an office or a locker in a sports club.

PRODUCT DIMENSIONS

30mm (1³/₁₆")

90mm (3⁹/₁₆")

ACTUAL SIZE!

Code Management
NANO90 has four code levels available:

- 8 digit Master Code
- 8 digit Sub-Master Code
- 4 digit User Code
- 6 digit Technician Code

The KitLock is supplied with two factory set codes:

- Master Code
- User Code

Before installing, change the Master and User Code by following the Programming and Operating Instructions.

nano 90
