We would like to make this walk as accessible as possible, everyone should be able to join a walk if they so wish. With that in mind Stanley Park was chosen as a location.

- It is wheelchair friendly with an accessible bathroom and parking.
- There are quiet places if you need time for yourself.

- The walk will be slow paced, you are welcome to stop for a snack or to come and go as you need.
- It is an outside area so service animals are welcome.
- A maps and information about the park are available online so you can prepare yourself and know what to expect.
- There will be guides with high-viz vests to help you find your way and guide you around the park.

What if you don't have a film camera, but would like to give film a try? Don't worry, there will be a number to borrow on the day. You will be able to choose from a simple point and shoot or a more advanced SLR. There will be manual and fully automatic cameras to suit any level of mobility. There will be guides on hand to help you load your camera and advise you on how it works.
