

Dear \_\_\_\_\_

I believe I have been a very good person this year, and so I come to you with an open heart and soulful eyes to suggest some presents that might reward such exemplary behaviour.

As you know my favourite film has always been \_\_\_\_\_ and it would be wonderful to receive a healthy stock for a rainy day!

However I must admit that recently my head has been turned by some of the new and exciting experimental films, so would also love to play with \_\_\_\_\_ come Christmas morning.

Also you know that camera that appeared in our house recently? The one that I said I'd picked up for \_\_\_\_\_ from \_\_\_\_\_? Confession-time... It actually cost \_\_\_\_\_ and it turns out it only takes specialist film! So to make the investment worthwhile could you please pop some \_\_\_\_\_ format in my stocking?

And finally...I'm concerned that when I'm out and about I won't be immediately recognisable to other analogue photographers. A [T-shirt / Pin / Patch / Sticker / Keyring] would be very helpful in making my passion clear to the world.

If you are at all confused by the ideas above then please speak to the lovely people over at [www.analoguewonderland.co.uk](http://www.analoguewonderland.co.uk) (phone 01494 614514 or you can email [help@analoguewonderland.co.uk](mailto:help@analoguewonderland.co.uk)) They will be able to decipher everything and will happily point you to the right product or shop.

Thank you and Merry Christmas!

Lots of love, \_\_\_\_\_

P.s. another camera is always welcome...maybe something large format. No? Ok birthday list then :-D
