PRODUCT MAY VARY FROM IMAGES SHOWN

PRODUCT COMPONENTS

- A. On/Off Button
- B. LCD Screen
- C. Camera
- D. Flexible Cable

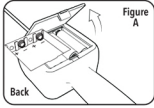

- E. Hook Attachment
- F. Mirror Attachment
- G. Magnet Attachment

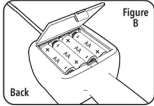

BATTERY INSTALLATION

IMPORTANT! Dry your hands before installing or replacing batteries.

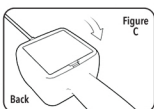

1. Remove battery compartment cover. (Figure A)

2. Insert 4 AA batteries (Not Included) into the battery compartment. Make sure to line up the positive (+) and negative (-) markings on the battery compartment (Figure B)

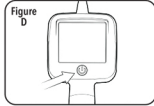

3. Once the batteries are installed, put the battery cover back on. (Figure C)

NOTE! Make sure batteries are secure before reinstalling the battery cover to ensure optimal functionality.

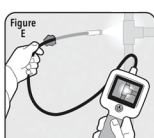

HOW TO USE

1. Turn the Lizard Cam™ on by holding down the power button (Figure D) The screen will become viewable when on.

To turn off the Lizard Cam™ hold down the power button until screen is blank.

2. Position the camera at the end of the flexible cable (Figure E) to desired location for inspection. Slowly insert the flexible cable into inspection location. Do not apply force.

NOTE! The flexible cable can be bent into numerous shapes that may help you explore areas you otherwise thought were impossible to see.

3. Included are 3 attachments to help better view and retrieve objects from inspection locations (See "Attachment Installation" Section)

IMPORTANT! Do not immerse the monitor in water. Store in a dry place. Such measures reduce the risk of electric shock and damage. Only the lens and cable are water resistant.

ATTACHMENT INSTALLATION

Lizard Cam™ includes 3 attachments - Mirror, Hook and Magnet. All of the accessories screw onto the end of the camera cable as illustrated below:

Mirror

Hook

Magnet

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
