Elevated Gardening Bed 36"X24" W/Green House

Item UPC Code: 6-81129 -06533-2

Item NO:906533

IMPORTANT

- 1: This is a wood item which will weather naturally in the outdoor environment. To prolong the life of your elevated garden bed it is recommended to seal your wood before use.
 - 2: Please note, you must use an ECO-SAFE sealer with no VOC's. These are normally found in whey or soy based sealers but you will need to check with the manufacturer of the sealer to make sure they are eco-friendly.
 - 3: Also, there are many modern exterior latex paint sealers without harmful chemicals that can leech into the soil. Do not use any sealers or paints with lead in them.
 - 4: It is up to the user to make sure they are using an eco-friendly/eco-safe sealant. You can search the internet for options. The manufacturer will not be responsible for damage due to improper usage or weathering of wood which includes but is not limited to rotting and warping of wood.
- Assembly Note: Space boards to allow for expansion of the wood. As environmental conditions change boards may shrink and expand.

Elevated Gardening Bed 48"X34"W/Green House

Item UPC Code: 6-81129 -06540-0

K:Screws (4PC)

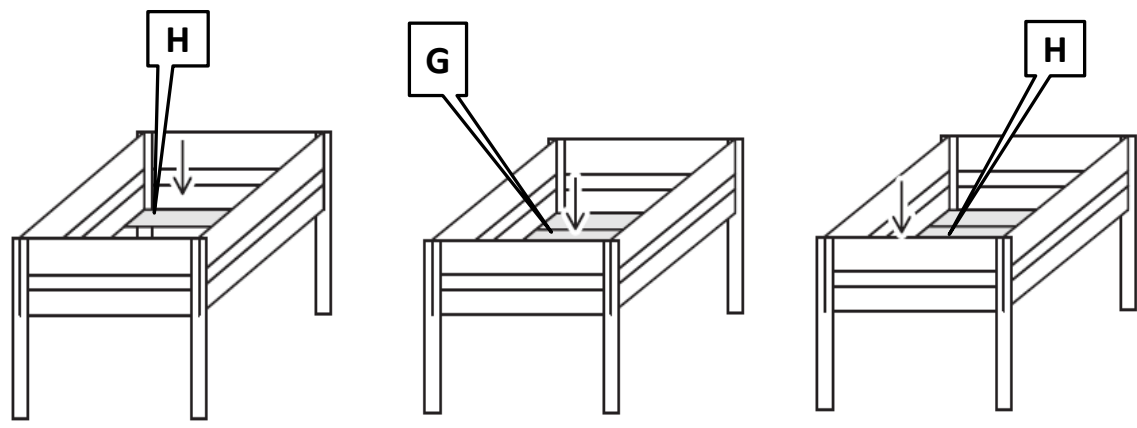

Step1:

Step2:

Step3:

This garden bed does not have a pre-drilled drainage hole. If you would like to have more drainage, drilling a hole in the bottom of the garden bed is an option. Carefully, team lift and turn the garden bed upside down making sure you are on a flat and secure surface before drilling the hole. The lining material is porous so water will seep through the liner. Make sure the liner is NOT in the garden bed when you drill the hole. Please also be aware of where the drill bit enters and exits the garden bed. DDI will not assume responsibility for defects or damage due to the hole drilled in the garden bed.
