Algae Mould Moss & Lichen Control

Kills and helps prevent moss, mould, mildew, lichen and algae growing on most exterior hard surfaces. Biodegradable and at recommended dilution rates has low toxicity for plants and animals. As a precaution any foliage should be fully rinsed if contact occurs. Ideal "spray and leave" solution.

DIRECTIONS

For optimum initial application use at a ratio of 1:4 (200mls per litre, 20% soln) with cold potable water and a ratio of 1:20 (50mls per litre, 5% soln) for subsequent applications. Spray onto surfaces, and leave.

For best results allow a dry contact time of at least 3 hours. Most surfaces do not require rinsing although some aged painted surfaces may require a rinse to avoid streaking.

GOOD PRACTICE

Under Good Practice Protocol based on accepted international research a 1% solution of this product, diluted with potable water, is recommended with liberal application on clean hard surfaces with a minimum contact time of 10 minutes. At this concentration the product provides 1000PPM QAC.

EXTERIORS Most hard surfaces where moss, mould, fungi & yeast are present

PROPERTIES

APPEARANCE	Clear Colourless Liquid
FRAGRANCE	No Fragrance
SPECIFIC GRAVITY	1.00
pH	10.5 (100%)
MICROCID	1000ppm ADBAC (@1% soln)

REORDER

5 Litres	FK-MOSKI05
20 Litres	FK-MOSKI20
200 Litres	FK-MOSKI200

CHEMICAL SOLUTIONS SUSTAINABILITY POLICY

We are committed to continual improvement in our environmental performance, and have established a number of goals and initiatives helping achieve this objective. Where possible we always use biodegradable raw materials and all our finished product packaging is reusable or recyclable.

This is only a start, we continually strive to better our environmental performance.
