

AUTOsense and AUTOcut

AUTOMATED AND MANUAL HAND TOWEL SYSTEMS

AUTOsense is the latest method of controlling your hand drying, whether it be in your washroom, kitchen or food preparation areas.

“AUTOcut” complements our highly successful “AUTOsense” touch sensitive dispenser and offers a manual dispensing option where AUTOsense may not be suitable.

Paper Towel Selection

AUTOsense Deluxe AS300 - 100 metre deluxe 3 ply roll. Up to 500 towels. Ideal for health, medical and aged care. A very soft and extremely absorbent towel.

AUTOsense Classic AS200 - 200 metre classic roll. Excellent all round towel. Absorbent and ideal for all areas where performance and cost control is required. FSC® Certified paper from responsible sources.

AUTOsense Blue AS200B - 200 metre classic roll. Up to 1000 towels when set at 20cm length option. Designed for the meat, fish and game domestic and export preparation environments. Ideal for kitchens, food handling and food preparation at all levels. FSC® Certified paper from responsible sources.

AUTOsense

THE AUTOMATIC CHOICE

If you are concerned about the spread of bacteria and germs in your organisation or decreasing your costs, the AUTOsense system will give you that control.

No more paper towels littering your floor or great handfuls being used where one would have done the job. AUTOsense can increase the efficiency of your operation. By holding your hand close to the sensor, a fresh, clean and ready to use towel is automatically dispensed. Increase HACCP control by eliminating cross contamination.

Auto Sense Dispenser

- Manage wastage and costs by controlled dispensing options
