

Getting the best of both worlds

7 out of 10 patients found the Wisp fitted better and was more comfortable than their existing nasal mask*

*Philips patient evaluation trials – Wisp vs. leading competitor nasal and pillows masks

Which is your Wisp?

Why patients preferred each version from an appeal perspective

Fabric frame with headgear

- Feels softer and more pliable
- Gets you closer to the feeling of your pillow
- Reversible for a silky sateen or soft suede feel on the skin

Clear frame with headgear

- Silicone is less visible and doesn't draw attention to the face
- Translucent, looks smaller

Item	Size	Part no.
Wisp nasal mask with exhalation port		
Wisp mask with silicone frame and headgear	Inc. 3 sizes	1094060
Wisp mask with fabric frame and headgear	Inc. 3 sizes	1094061

Open field of vision for a
feeling of greater independence –
easier for you to read before
sleep and allows you to wear glasses

We're changing the face of sleep.

You told us that you wanted a better choice of mask, something that combined the performance and comfort of a nasal mask with the aesthetic elegance of a pillows mask.

You told us that you wanted a better overall mask experience that improved your lifestyle. We put it all together and our solution is Wisp.

Meaningful
innovation

Just one more way Philips Respironics is working
with you as Allies in Better Sleep and Breathing.

Our unique tip-of-the-
nose cushion is designed to
sit below the nose bridge for a
minimal contact experience and
superior seal

Patients said they had a **better
quality of sleep** with Wisp
over the leading pillows and nasal masks

Compact design comfortably
fits more than **98%**
of patients
