

## USA FCC/IC Information

**Warning:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation. Modifications not approved by the party responsible for compliance could void user's authority to operate the equipment.

This Class B digital apparatus complies with Canadian ICES-003

# Quick Guide for AIRIA APP Connection

Please scan the QR code below to watch the step by step guiding video.

Using this AIRIA APP you can control ozone generator via an iPhone or Android smart phone anywhere, even outside of your home, for example.

Supported wireless routers must work with operating frequency: 2.4 GHz  
Standard: IEEE 802.11b/g/n

### Supported smart phone system:

	BLE	Wi-Fi
Frequency	2.4GHz	2.4GHz
Maximum Power	<10dBm	<20dBm

### NOTES:

- The APP is only compatible with smart phones and is not available for laptops or tablets.
- APP may not support the latest version of Android or iOS system because of the test of stability. Also may not compatible with tampered Android or iOS system.
- Due to different network situation, sometimes, request time-out could happen, it is necessary to do network configuration again.
- Due to different network situation, the control process may return time-out(30S-60S) sometimes.
- All the illustrations in the manual are for explanation purpose only. The latest APP may be slightly different. The actual situation shall prevail.
- The APP will continue to be updated with design and content improvements. Check for update at the Google Play Store or the APP Store.

1. Search 'AIRIA' on APP Store or Google Play and download it.
2. Connect your smart device to power supplies. If it's been connected to other mobile devices before (a Wi-Fi icon shows that it is connected, see the picture below), please press the FAN and OZONE buttons simultaneously to reset it. (FIG.1)
3. Launch the AIRIA app and log in to your account (sign up for your first use).
4. Turn on Bluetooth in your mobile phone. Add your smart device manually or auto scan all the smart devices nearby. (FIG.2)
5. Choose your preferred Wi-Fi and enter the password.
6. AIRIA starts connecting to your device. (FIG.3)
7. Once you have set up the connection, you can name your device and get started. (FIG.4)
8. To start control your device remotely. The initial pass code for the device is 1234.
9. To invite other phones to control the device, go to setting-share device.
10. Feel free to explore the smart control dashboard. If you have any questions or suggestions, please email to [support@airthereal.com](mailto:support@airthereal.com).
