		4. FIRST AID MEASURES – cont'd
4.2	Effects of Exposure:	Eves: Severe or permanent eye damage.
		Skin: Burns upon direct contact.
		Ingestion: Severe burns of mouth, throat, stomach.
		Inhalation: Severe irritation or burns in respiratory tract and mucous membranes. Possible lung damage.
4.3	Symptoms of Overexposure:	Eyes: Redness, burning, irritation, and swelling around eyes
		Skin: Redness, burning, itching, rash, blistering of skin.
		Ingestion: Nausea, vomiting, severe abdominal pain.
		Inhalation: Coughing, wheezing, swelling of throat, irritation in mucous membranes, difficulty breathing.
4.4	Acute Health Effects:	May be harmful if inhaled. Material is extremely destructive to the tissue of the mucous membranes and upper respirato tract. May be harmful if swallowed. Causes burns. May be harmful if absorbed through skin.
4.5	Chronic Health Effects:	May damage the nervous system, kidney and/or liver.
4.6	Target Organs:	Eyes, skin, nervous system, kidneys, liver, respiratory system.
4.7	Medical Conditions Aggravated by Exposure:	Pre-existing dermatitis, other skin conditions, and disorders of the target HEALTH 3
	riggiarated by Exposator	organs (eyes, skin, and respiratory system) or impaired kidney function
		may be more susceptible to the effects of this substance. 1` PHYSICAL HAZARDS 2
4.0	Notes to Division	EYES SKIN LUNGS
4.8	Notes to Physician:	This product contains <u>Selenious Acid</u> and is potentially fatal if ingested even in small amounts. 24-hour admission should be considered in asymptomatic or minimally symptomatic patients as delayed toxic effects including pulmonal patients.
		edema and multi-organ failure may occur. 24/7 medical toxicology consultation is available at +1 (855) 281-1742.
		5. FIREFIGHTING MEASURES
5.1	Fire & Explosion Hazards:	Non-flammable. May react with metals to release hydrogen gas, which can form explosive mixtures
		with air. May intensity fire; oxidizer. Keep/Store away from clothing/ combustible materials.
5.2	Extinguishing Methods:	Use fire-extinguishing media appropriate for surrounding materials.

Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. 6. ACCIDENTAL RELEASE MEASURES Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment (PPE). Use safety glasses or safety goggles and face shield; use gloves and other protective clothing (e.g. apron, boots, etc.) to prevent skin contact. <u>Small Spills</u> : Wear appropriate protective equipment including gloves and protective eyewear. Use a non-combustibl inert material such as vermiculite or sand to soak up the product and place into a container for later disposal. Large Spills: Keep incompatible materials (e.g., organics such as oil) away from spill. Stay upwind and away from spi or release. Isolate immediate hazard area and keep unauthorized personnel out of area. Stop spill or release if it can I done with minimal risk. Wear appropriate protective equipment including respiratory protection as conditions warrar Recover as much free liquid as possible and collect in acid-resistant container. Use absorbent to pick up residue. Avc discharging liquid directly into a sewer or surface waters. 7. HANDLING & STORAGE INFORMATION Avoid breathing mists or spray. Avoid eye and skin contact. Wear protective equipment when handling product. Keep of of the reach of children. Do not eat, drink or smoke when handling this product. Wash thoroughly after handling. Do n expose to heat and flame. Use only in ventilated areas. Keep out of the reach of

DEFINITION OF TERMS

A large number of abbreviations and acronyms appear on a SDS. Some of these that are commonly used include the following:

GENERAL INFORMATION:

CAS No.	Chemical Abstract Service Number
RTECS No.	Registry of Toxic Effects of Chemical Substances Number
EINECS No.	European Inventory of Existing Commercial Chemical Substances Number

EXPOSURE LIMITS IN AIR:

ACGIH	American Conference on Governmental Industrial Hygienists
IDLH	Immediately Dangerous to Life and Health
NOHSC	National Occupational Health and Safety Commission (Australia)
OSHA	U.S. Occupational Safety and Health Administration
PEL	Permissible Exposure Limit
STEL	Short Term Exposure Limit
TLV	Threshold Limit Value
TWA	Time Weighted Average

FIRST AID MEASURES:

	CPR	Cardiopulmonary resuscitation - method in which a person whose heart has stopped receives manual chest compressions and breathing to circulate blood and provide oxygen to the body.
