

Waterdale COLLECTION

INSTALLING YOUR PLAQUE

INSTALLATION KIT INCLUDES:

Step 1: Using the holes in plaque as a guide, pencil in drill marks on mounting surface and drill anchor holes.

Step 2: Install anchor (A), leaving enough external threading to allow barrel to attach to the exposed end.

Step 3: Thread down barrels (B) using screw (C) onto anchor and hand tighten them.

Step 4: Place plaque onto the exposed barrels and finish off installation by fastening caps (D) over plaque and thread into barrels.

Make sure to remove the protective film from the front of the Lucite Plaque.
