MUSICPLAY K-6

For less than \$2000, your school can have a new, standards based K-6 music curriculum with songs and activities that students LOVE! Musicplay is an award winning music program for K-6 schools. Each grade level includes 40 weekly lessons that clearly outline concepts and skills taught in each grade. Musicplay includes seasonal songs, fun songs, rounds, partner songs, folk music, multicultural music and choral music. In the Musicplay curriculum students sing, play instruments, move to music, listen, create and learn to read and write music. Important concepts are taught through play. Each week in Grades 1-5 a new singing game is taught. Children love music games making this a text that will have your students really excited about learning music!

Musicplay fits well with Orff or Kodály methodologies, yet it is a program that is used successfully by non-specialist teachers. Orff arrangements are found in The Orff Source Volumes 1, 2, and 3. Students are taught to read and write music through careful sequencing of activities. Extensive listening lessons, maps, activities, cup games and intercom scripts are included in the Listening Resource Kits 1-5, and the included listening examples in Musicplay K and 6. Reproducible song storybooks and Alphabet songs for K-1 teachers integrate with and support early literacy programs.

The Digital Resources replace and greatly enhance the material that is in the student books. The music and lyrics are specially formatted to fit a computer/projector screen. Quicktime movies and PowerPoints of the music and lyrics for each song are included as well as slides to teach note names, solfège, beat, rhythm, dynamics, tempo, form, and cultural context. Smart notebook files are included for teachers with Smartboards. This is an excellent tool for shared reading! Sample lessons, PowerPoint samples scope and sequence, curriculum correlations and song lists can be found online.
