Maggie's Farm Flying Insect Killer kills bugs fast. Using natural plant oils as the active ingredients in a water-based formula, it leaves no harmful residues. Bugs are tough, but solutions should be simple and effective. Maggie's Farm is committed to offering products that are Simply Effective™. It's as simple as that!

DIRECTIONS FOR USE

Always read label directions and precautions prior to use.

Shake well before use and periodically during use.

This product can be used indoors and outdoors.

For optimal spraying, rotate the spray nozzle to point in the same direction as the red dot located on the top rim of the can. Point spray nozzle away from face and press button firmly to spray, holding the can upright.

Flying Insect Treatment: To kill flies, gnats, mosquitoes, moths and other flying insects, direct spray at flying insects and contact as many as possible. Spray in short 2 – 3 second bursts. For best results, spray flies when they are resting to get the best spray coverage possible. When using indoors, wipe up excess. Repeat as necessary.

When using outdoors, spray breeding areas such as in and around garbage cans and compost piles, and areas where pests may be entering your home. Repeat as necessary.

Precautions

-We recommend good safety practices when using any insecticide, such as avoiding contact with eyes and skin and avoiding directly breathing spray mist. If product gets in eyes, flush with water for at least 15 minutes. If on skin wash with soap and water. If irritation persists, or if more than an incidental amount is swallowed, seek medical attention. If seeking medical treatment, have this label with you.

- Plant oil scents can be objectionable to some people, particularly if used in enclosed areas. To get rid of the scent, clean up the spray with water and dish soap.
- Do not apply to food, feed or plants.
- Keep out of lakes, streams and ponds.
- To prevent electrical shock, do not apply the product into electrical outlets or electrical boxes, or on any bare wires.
- We have tested the product on a variety of surfaces without problems, but it is possible that the plant oils could damage some plastics or finishes or could stain some fabrics or porous

surfaces, so test spray a small area first. If clean up is needed, use water and dish soap.

-Treated surfaces may be slippery when wet. Wipe away excess spray with a clean cloth or paper towel.

Physical Hazards: Contents under pressure. Keep away from heat, sparks and open flame. Exposure to temperatures above 130° Fahrenheit may cause container to burst.

Storage & Disposal: Store in a cool, dry area away from heat or open flame. When container is empty, recycle if available. Do not puncture or incinerate.

Limitations of Liability: Maggie's Farm Ltd makes no warranties of merchantability or fitness for any purpose except expressed on this label. Buyer assumes all responsibility for safety and use not in accordance with label directions and precautions.

Maggie's Farm Ltd represents that this product is a minimum risk pesticide and is exempt from registration under EPA FIFRA 25(b). This product is not EPA registered.
