

NATURAL* INSECT REPELLENT

Protects Against Mosquitoes, Ticks & Flies

Deet-Free Not A Safety Claim

Moisturizing Formula.

Not Sticky · Not Greasy

Family Safe*.

Maggie's Farm Natural* Insect Repellent provides protection against mosquitoes, ticks, and flies. Our Simply Effective formula uses plant oils to repel insects with the power of nature. With moisturizing hemp seed oil and Vitamin E, it's perfect for the entire family*. Maggie's Farm is committed to offering products that are Simply Effective. It's as simple as that!

DIRECTIONS FOR USE

Always read label directions and precautions prior to use. Shake well before using and periodically during use.

Hold container 6 to 8 inches from exposed skin and spray with a slow sweeping motion. Slightly moisten skin, and spread with hand after application for maximum protection. To apply to face, first spray a small amount in the palm of your hand and then spread on face and neck. Do not spray eyes or mouth directly. Do not apply to clothing as product may cause staining. Reapply every 2 hours or as needed. May also be used on dogs, horses and other animals. Do not use on cats, birds or reptiles. Avoid the eyes, nose/nostrils and genitals when applying on animals.

Precautions

Allergen Potential: Do not use if you have allergies or sensitivities to essential oils or any of the product's ingredients listed on the front panel. The plant essential oils contain citral, eugenol and other substances that may have allergenic potential. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Apply to a small area of skin first to test for any allergic reaction, before applying over a large area of the body.

We recommend good safety practices when using any skin repellent, such as avoiding contact with eyes and mouth, and avoiding directly breathing spray mist. Do not apply to the hands of children. Adult supervision is required when applying on children. Wash hands after application. If product gets in eyes, flush with water for at least 15 minutes. If more than an incidental amount is swallowed, seek medical attention. If skin irritation occurs, wash treated area with soap and water. Seek medical attention if irritation persists. If seeking medical attention, have this label with you.

Physical Hazards: Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Exposure to temperatures above 120 °F may cause container to burst.
