## DRIPPERLINE WITH CLIPS

### MAKE THE INSTALLATION OF YOUR DRIPPERLINE EASIER!

Have your dripperlines supplied with clips already fitted.

Netafim Dripperline can be supplied with the clip already fitted, making the installation both quicker and easier than other conventional clip systems.

- Pre-Installed Adjustable Dripperline Ring;
- Easily adjustable – clips are fitted at every dripper but can be moved either side of the dripper to prevent water migration along the tube;
- Economical – saves labour costs;
- Flexible options – available for all Netafim Heavy Wall Dripperlines including UniRam™ and DripNet PC™ AS;
- Available for 16mm to 20mm Dripperlines;
- Pre-installed at Netafim Australia.

"I HAVE USED NETAFIM DRIPPERLINE SINCE INSTALLING MY FIRST VINEYARDS IN 1998. I NOW HAVE IN EXCESS OF 1000 HECTARES OF VINEYARD WITH NETAFIM UNIRAM WITH CLIPS.

THE PRINCIPAL REASON FOR USING THE CLIPS IS LABOUR COST SAVING AND ACCURACY IN CLIP PLACEMENT. THE CLIP PREVENTS THE DRIPLINE FROM SAGGING AND ELIMINATES THE WATER FROM RUNNING DOWN THE DRIPLINE ON A SLOPE." P. YEALANDS, YEALANDS ESTATE, MARLBOROUGH
