PRORITUALS is an eco-friendly, stylistically advanced hair care and color line featuring Paraben and Sulfate-Free formulas that deliver superior results. “Inspired by Nature and Driven by Fashion,” **PRORITUALS** boasts a full wet styling and color line that covers grey like no other!

High-performance hair color

Incredible grey coverage, vibrant color and luminous shine!

ChromaPrism™ Technology

1 Intense Repair

Maximum protection to help promote improved hair and scalp condition.

2 Deep, Lasting Moisture

Deep penetration through the hair's cuticle into the cortex combined with the ability of these molecules to bind to water provides deep, long-lasting moisture.

3 Balanced Formula

The interaction between moisturizing Oligopeptides and high-quality pigments result in brilliantly rich, long-lasting colors with an optimum degree of coverage (100% of white hair). The precise balance of this formulation helps ensure stabilized color, prevents fading, and keeps color vibrant for much longer than average hair color.

Color Outside of the Box

Propigment 2.0

12 oz | 353 ml – White, Clear

4 oz | 118 ml – Blue, Green, Orange, Purple, Red, Pink, Yellow

PRORITUALS ProPigment 2.0 is a bright, bold, direct dye series. This unique direct dye creates long-lasting, vibrant color and imparts a rich shine leaving your hair feeling soft and silky. Use Clear to lighten and brighten any ProPigment 2.0 shade and White to create pastels. Ready for immediate use: no developer needed.

KEY BENEFITS:

Long-lasting direct dye series, intermixable shades with bright, fade-resistant colors, acidic pH

Metallic Series

3.38 FL. OZ. / 100 ML

The Metallic Collection features 9 shades inspired by the fashion metallic trend. These new shades can be used alone or intermixed with PRORITUALS Hair Color Cream and Brighteners for refinement or to create dramatic results.

KEY BENEFITS:

Rich, luminous, long-lasting color, 74 intermixable shades, unique formulation that allows for semi, demi, & permanent in one tube, ChromaPrism™ Technology helps ensure deeper, longer-lasting color results, low ammonia with coverage and tonal series 1.0%-1.8% (High Lift/Super Lift have slightly higher alkali), low to zero odor, balanced protein & moisture base that is ideal for all hair types

Tonal Series

NATURAL SERIES: ■

The Naturals Series has a true cool brown natural base, provides 100% grey coverage, and has the maximum amount of dye load at every level.

FUNDAMENTAL SERIES: ■

The Fundamentals Series is unique as it was designed to work with all other series. It acts as an anchor to achieve exceptional grey coverage. Levels 7-10 are beautiful California blondes.

BEIGE SERIES: ■

The Beige Series offers a level 8 and 9 Beige. This is a true violet base which will control any-and-all unwanted gold tones and is also excellent for toning.

TOBACCO SERIES: ■

The Tobacco Series has a yellow, natural base that provides warmer browns. It's excellent for grey coverage when used alone and blends perfectly with any of our warm reds.

CHOCOLATE SERIES: ■

The Chocolate Series produces a rich chocolate brown. It's a warm, natural base that is excellent for grey coverage when used alone and can also be used for tint backs and low-lighting.

HIGH LIFT SERIES:

The High Lift Series achieves 2–4 levels of lift in a single process (depending upon the developer).

Our Extra Super Light Blonde, Silver Pearl, and Super Light Ash Blonde are all a level 10. This series has a heavier dye load of pigment to fight and control underlying warm tones.

Tonal Series

SUPER LIFT SERIES:

The Super Lift Series has a violet base that gives the maximum amount of lift for beautiful, super light blondes. This series can achieve up to 5 levels of lift (depending upon the starting level) and completely controls the underlying pigment in lighter shades.

ASH SERIES:

The Ash Series is an amazing, stand-out color series because it doesn't use a green base. It instead uses a blue/blue violet base which completely controls any unwanted orange undertones from levels 5–9.

MOCHA & AUBURN: ■ ■

We have also added Mochas and Auburns to our color line series to achieve a more complete palette that allows colorists to achieve any color they desire.

Tonal Series

GOLDEN SERIES: ■

The Golden Series has a yellow gold base that is excellent for mixing with other fashion tones. It offers great coverage while adding dimension and is excellent for low lighting and tint backs. Levels 7–9 in our Goldens will give you a beautiful sun-kissed blonde.

SUN SERIES: ■

The Sun Series has a yellow orange base and provides more of a strawberry look and feel to the hair. It has two levels—a level 6 and a level 8 and can also be used as a glaze to brighten dull highlights.

TITIAN SERIES: ■

The Titian Series features a rich Dark Copper that can stand alone or help achieve natural reds. Dark Titan Blonde is a level 6 with a red orange base that adds richness to any Copper. It can also be used as an anchor in any of our Reds or Coppers for beautiful grey coverage.

COPPER SERIES: ■

The Copper Series (along with our Red Series) has intensifiers that can be used with any of our Coppers or Reds for added vibrancy and to give colorists a large range of creativity.
