CASTECH

CASTECH UV69 MARK3

NOW EQUIPPED WITH

XAAR PRINTHEAD TECHNOLOGY

Superior Print Quality, Even On Uneven Surfaces

The CASTECH UV69 MARK3 enables mass personalization for corporate gift businesses. A mid size UV Flatbed with the ability to print colour, white and varnish all at once on a wide variety of shapes and surfaces even if they are uneven.

With white Ink, the CASTECH UV69 MARK3 can print embossed images, making colour printing patterns come alive. Thus eliminating the need for screen printing, greatly reducing the costs of both labour and raw materials.

The CASTECH UV69 MARK3 will provide the designer and operator a wider range of media options as the cutting edge UV printer provides a higher printhead-to-surface clearance of up to 13mm with the implementation of the Xaar industrial printhead while maintaining a superior printing accuracy of less than 0.3mm.

Eliminating human error of misjudging the height platen, it is equipped with a sensor to do auto adjustment of height. The double air-cooled UV lamp enhances the printing effect and dries the printing quickly. With additional features such as its intelligent control panel, high speed carriage comprising of 3 printheads for colour, white, and varnish, as well as its intelligent ink supply sytem - operators will be able to effectively utilise the UV printer to print on a variety of surfaces such as glass, wood, plastic, acrylic, etc.

Specifications:

Model	CASTECH UV69 MARK3 SERIES
Print Technology	Flatbed UV Printer
Maximum Media Size	1050mm (W) x 610mm (L) x 140mm (H)
Maximum Printable Size	600mm (W) x 900mm (L)
Printing Mode	Colour, White & Varnish LC, LM
Printing Height	0 - 140mm
Printing Resolution	Max. 2400dpi
Printing Colour	C, M, Y, K, White + Varnish
Software	Photoprint
Image Format	AI, PS, TIFF, JPG, EPS, PDF
Printer Size	1620mm x 1590mm x 860mm
Printer Weight	170kg
Environment	Temperature: 20 - 28 Deg Humidity: 35% - 65%RH
Connectivity	Ethernet
Power Requirements	AC220/110+-10,50HZ-60HZ
