Auto Sheet Feeder Unit F-MARK2 for CE7000

Suitable option for post process with print on demand. Improves productivity to produce stickers/labels and more with sheet media, and contribute to the reducing labor cost.

Features

- Continuous, hands-free sheet media loading and processing
- Dedicated software ensure accurate alignment of contours and printed images
- Camera quickly detects 2-point reference marks for alignment
- Performs half cutting, perforation cutting as die cutting and dashed line cutting

Maximum media size
Super A3
(set in portrait)

Media stacking up to
35 mm or **200 sheets**
(it varies by material, thickness and condition of media)

* The cutting plotter is not included in the system. The F-MARK2 is a product of ATS Digital S.r.l.

Applications

It is suitable for post-processing of the printed media created with the print-on-demand in small production runs for producing various products such as labels, heat transfer sheets for custom apparel and the POP as table advertising.

Components of the system

Camera

Quickly detects 2-point reference marks for aligning the contour & printed images.

Auto Sheet Feeder Unit

An arm with air suction cups lifts the media from the supply tray and places it into the cutter.

Exit tray

After cutting is completed, sheets are ejected in the tray.
* It is required to periodically remove sheets from the tray.

Digital Cutting Software (Windows)

The system includes dedicated application software. After media is loaded, the attached camera quickly detects 2-point reference marks and corrects alignment before contour cutting data is transferred, giving you the perfect cut every time.

The software configures cutting conditions such as number of copies, cutting force, cutting speed, offset, and number of paths, and it can import Adobe Illustrator or CorelDRAW EPS files as the contour data.

* Designs created with any version of Illustrator or CorelDRAW need to be saved or exported in the specified format.

* The cutting plotter is not included in the system. The F-MARK2 is a product of ATS Digital S.r.l.
