

THIMBLE SIZING CHART FOR COLONIAL THIMBLES 2021

METRIC MM INSIDE DIAMETER AT RIM	20.5	20	19.5	19	18.5	18	17.5	17	16.5	16	15.5	15	14.5	14	13.5	13	12.5	12
INSIDE CIRCUMFERENCE MM				60	58	56.5	55	53	52	50	49	47	46	44	42	41	40	38
EUROPEAN SIZES (CE) In apex	20.5	20	19.5	19	18.5	18		17	16.5	16	15.5	15	14.5	14	13.5	13	12.5	12
COLONIAL SIZES				13	12	11		10	9	8		7	6		5	4		
COLONIAL Raised Edge/SS					12	11	10 OR 11	10	9	8	7 or 8	7	6	5 or 6	5	4	3 or 4	
COLONIAL Crimp Top				13	12	11		10	9	8		7	6		5	4		
COLONIAL Nickel Silver		15	14	13	12	11		10	9	8		7	6		5	4		
Simons Sterling Silver						15		14	13	12	11	10	9	8	7	6	5	
ROXANNE (approximate)				10	9.5	9	8.5	8	7.5	7	6.5	6	5.5	5	4.5	4	3.5	3
ROXETTE (approximate)									XL	XL	L	L	M	M	M	S	S	XS
MAGNETOP (approx.)	XL		L				M				S			XS				

NOTES TO FIND CORRECT THIMBLE SIZE

Method 1: Buy a cheap metal thimble (or use any old thimble you have) that fits comfortably. Measure the opening **diameter** in millimeters and convert to the correct size in above chart

Method 2: Measure finger **circumference** snugly at the place where your thimble opening will be. Usually midway between the nail bed and nearest joint. Measure in millimeters and divide by 3.14. This is the thimble **diameter** you need. Convert to correct size in above chart.

FOR ROXANNE SIZING. Use [YouTube](#) video for ROXANNE THIMBLE SIZING or contact Colonial Needle Co at 914 946 7474 or go to our website www.colonialneedle.com

Or use a ring sizer that fits snugly between the cuticle and the nearest joint, and add “1” to the ring sizer number, that new number will be your Roxanne thimble size. The ring sizer should fit where the thimble opening will be.

SOME MATH: Inches to mm : Multiply inches by 25.4

Circumference to diameter: Divide circumference by 3.14
