

PRIME® *Energy Saver Wall Tap*

Wall Tap Instructions:

1. Plug the wall tap into a properly grounded outlet. Connecting this product to an improperly grounded outlet will void all warranties.
2. Turn the switch to the on position. The wall tap is now providing power.
3. Make sure electronic devices are turned off before plugging them in.
4. Turn the lighted green switch to the off position when finished using electronic equipment to turn the power off and stop the flow of electricity.

Warning: Risk of fire or electric shock – Do not use in wet locations or with aquariums / Use indoors only / Do not use in receptacles that are not properly grounded / Do not exceed electrical ratings listed on product / Fully insert plug / Do not attempt to perform repairs yourself / Do not use with heaters or heat producing devices

Limited 5 Year Warranty:

Prime warrants to the original purchaser of any Prime Energy Saving tap for 5 years after purchase, that the tap shall be free from defects in design, material, or workmanship. Prime will correct defects in this tap by repair or replacement, at its option, if within fifteen (15) days of the discovery of the defect the tap is returned with proof of purchase, and it is deemed by Prime to be covered under the Limited Warranty, as outlined above. Please refer to <http://www.primewirecable.com/images/PDFmanualswarranties/PRIMEUSB02.PDF> to read our complete safety instructions, warranty and claim procedures including maximum coverage and other limitations.
