*We have 4 busy drive thru cafes. All of them have a Nectar Fruits açai machine. The support we receive from them is 10/10 and our customers absolutely love the taste and texture of our açai bowls.*

### **Arthur, Taste My Bean**

*Board short barista café can't recommend nectar fruits acai products enough. We used their sorbet acai as a scoop-able product, it was amazing. When we finally got our hands on one of their machines, it was game changing. The product is consistent every time, tastes incredible and is one of our top selling products.*

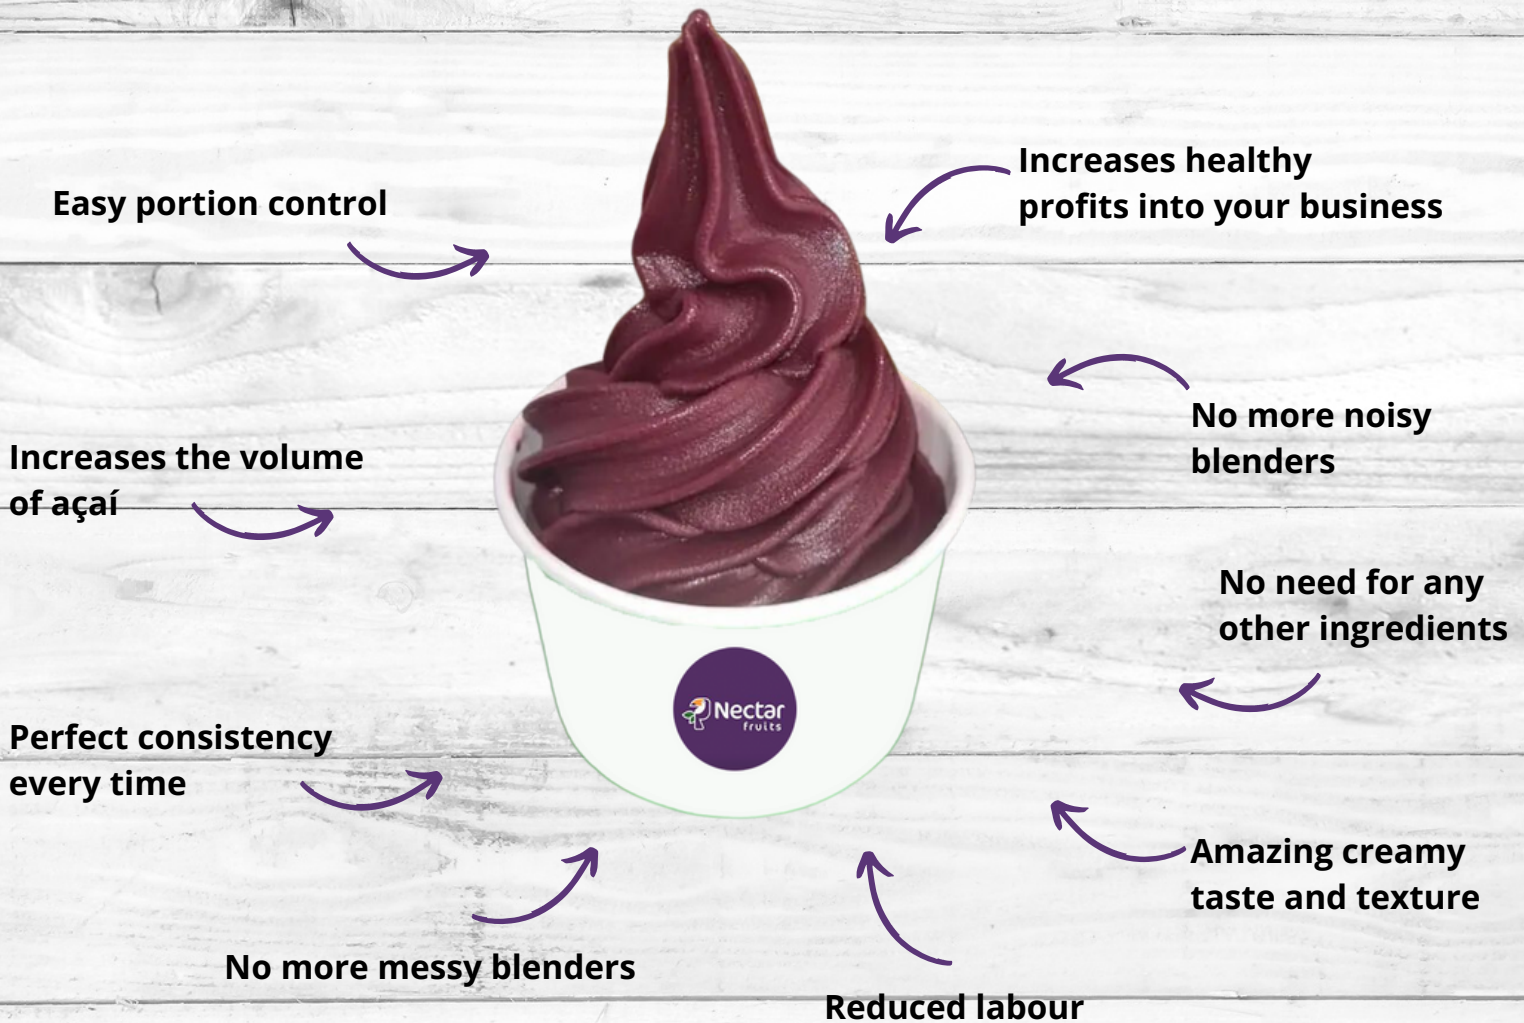

*Nectar Fruits has amazing products but also first class customer service. We are thankful to have a great partnership with their company.*

### **Stacey, Boardshort Barista**
