

LVR 375A

LV375A- COMBO GAS LAVA ROCK ROTISSERIE + WHEEL LIFT GRILL

EXAMPLE OF THE PHOTO LVR375A WITH 1000MM WIDTH

AVAILABLE SIZES

- Width available as per the table below, according to the customer's needs.

Width mm (inches)
1000mm (39,37")
1200mm (47,24")
1500mm (59,05")
1800mm (70,86")
2000mm (78,74")

ROTISSERIE

- Motorised rotating skewers;
- Aluminum slots;
- Skewers with stainless steel blade;
- Removable frontal bar for a better cleaning access.

MACHINE STRUCTURE

- Internal structure in AISI430 or AISI304 stainless steel;
- 4 inches casters, which helps the displacement for maintenance and cleaning;
- External panels in brushed AISI430 or AISI304 stainless steel. Please specify when ordering;
- Angled trays on the lower part of the equipment & central removable tray for grease drippings collection;
- Unit designed for cooking grilled food;
- Latest technical features of AGA 2024 series (certificate 9060);
- Appliance equipped with safety gas kit that includes AGA approved parts: Safety gas valve with automatic shut off system, pilot, and thermocouple.

GAS

- Appliance has 2 gas connections 3/4 inch each, in a recessed rear connections cavity;
- Suited for natural gas or LPG. Please specify when ordering;
- An independent pressure regulator is required for each gas inlet.

ELECTRICITY

- Appliance has a 240VAC – 1.2A power 270w single-phase 50Hz motor;
- Electricity consumption 0.27kWh – 240VAC;
- Australian Standard electrical plug.

OPTIONAL

- Frontal rail for GN tray;
- Accessories for rotisserie such as triple skewers, 5 prong skewers, baskets, tambours.

MISCELLANEOUS

- Fuel Gas Code, ANSI Z223.1, Natural Gas Installation Code, CAN/CGA-B149.2, or the Propane Installation Code, CAN/CGA-149.2. For installation under ventilation hood only. The manufacturer is not responsible for installation;
- Latest technical features of AGA 2024 series (certificate 9060);
- 2 Years Parts & Labour Factory Backed Warranty with standard terms.

BURNERS

- Fully manufactured in AISI 304 stainless steel with burner covers;
- Powerful heat & fast cooking with high gas MJ rating.

EASY GAS CONTROL

- Two Hi-Lo gas controls with automatic shutoff gas valve, zip cross lighting tube burner for easy lighting of main burners and battery spark ignitor;
- New powerful 3 way pilot flame safety system assembled in the sides of the appliance, away from the main cooking zone & rocks;
- Flash lighting tube for manual lighting of pilot with a lighter stick as alternative light up method.

LAVA ROCK

- Lava rock system for extra charred flavour similar to charcoal, adding extra cooking temperature;
- Similar appearance to solid fuel cooking;
- Models can operate with or without lava rocks.

PERFORMANCE

- A high performance display cooking grill with combination of high MJ gas rating for a high cooking heat & lava rocks for extra flavour & flame effect;
- Appliance can run on high heat for high output or low heat for more delicate pieces.

GRIDS

- 4 types of main cooking grids available: Round bar, flat perforated fish plate, V grid with grease collector & flat plate;
- Grids available in carbon steel or stainless steel;
- Wheel lift grills with faster winding & locking system;
- Fixed height resting grills.

SERVICES CONNECTIONS:
 - 2x3/4 INCH GAS CONNECTIONS (HALF OF TOTAL GAS CONSUMPTION NEEDED FOR EACH CONNECTION);
 - SUPPLY GAS PRESSURES 1-1.15KPA NATURAL GAS, UNIVERSAL LPG 2.75KPA;
 - MANIFOLD TEST POINT OPERATING PRESSURE TO BE SET AT 0.8KPA NATURAL GAS, 2.6KPA LPG ON THE APPLIANCE.

SIZING CHART AND CONSUMPTION				
Machine Width mm (inches)	Number of Burners	Number of Burnes Control Valves	Natural Gas Consumption	ULPG Consumption
1000mm (39,37")	10 Burners	2 Valves	186MJ/h	198MJ/h
1200mm (47,24")	12 Burners	2 Valves	215MJ/h	215MJ/h
1500mm (59,05")	16 Burners	2 Valves	286MJ/h	286MJ/h
1800mm (70,86")	18 Burners	2 Valves	322MJ/h	322MJ/h
2000mm (78,74")	20 Burners	2 Valves	344MJ/h	344MJ/h

PARRILLA/SKEWERS

Size of grill & rotisserie sections can be varied to suit customer needs on each size machine.
