MERCURY

SALAMANDER

Mercury Gas Range answers the needs of modem, busy catering establishments for reliable, well-built equipment that offers flexibility, performance, style and value for money. Mercury equipment has been designed with safety, ease of operation and performance as paramount. Mercury has a stylish and robust modular design, constructed of high quality brushed stainless steel, large "cool to touch" dials, large heavy duty adjustable feet and easy to clean and remove accessories.

The Mercury salamander compliments the freestanding range of Mercury gas cooking equipment. Two independently controlled infra-red ceramic burners provide excellent performance for menu items requiring grilling and gratinating. Built from stainless steel, including stainless steel removable crumb trays, the unit comes standard with a heavy duty grilling rack that can be manually adjusted to 3 grilling height. The salamander is simple to operate and easy to clean. The salamander is wall mountable but also has the option of installing feet for bench mount requirements.

The Mercury salamander is designed for the most demanding foodservice applications and delivers years of maintenance free operation.
