

## Royston 3 Module Bain Marie - 3 Elements BM-3

The Royston range of bain maries are designed to keep food warm and at food-safe temperatures while using minimal power. All bain maries fit standard GN 1/2 pans and are double skinned for added insulation.

---

### Product description

The Royston range of bain maries are designed to keep food warm and at food-safe temperatures while using minimal power. All bain maries fit standard GN 1/2 pans and are double skinned for added insulation. Additionally, the BM-2/3/4/5/6 range of bain maries feature individual heating elements that means that when there is an element failure, other pan slots are still functional and heating up to specification

---

### Additional Information
