

Purpose Statement

At SilverChef our purpose is to help people achieve their dreams.

This includes our people, our customers, our partners, and the communities where we live and work.

Together, we've dreamed some mighty big dreams and made them happen. We've helped more than 75,000 people start and grow their dream businesses and invested more than \$1.5 billion into the global hospitality industry along the way. Our dream is to help many more customers achieve theirs.

We encourage our people to dream bigger on everything from career progression to work life balance. At SilverChef, if you can dream it, you'll be encouraged to do it – whether that's kicking off a cross-functional project, inventing a way to make our products better, or dreaming up a new way to create impact for our communities.

Uplifting the communities where we live and work is in our DNA. We've lifted millions of people out of poverty with our 20-year partnership with Opportunity International. We've been a Certified B Corp since 2015, and with new initiatives like our Community Program, we're supporting organisations that use food service to help communities achieve their dreams. Our commitment is to continue building our positive impact as we grow globally.

Global growth comes with a responsibility to minimise our impact on the environment. SilverChef's business model is circular, giving customers the ability to return their used commercial kitchen equipment through our Rent-Try-Buy product. We fully refurbish and remarket the equipment as part of our Certified Used range. In many cases we extend the useful life of commercial kitchen equipment up to 20 years; giving our customers access to great equipment at a better price, and saving thousands of tonnes of waste.

At SilverChef, we help people achieve their dreams. That's our purpose. That's why we show up every day. For our customers, our partners, for the world around us, and most of all, for each other.

Dream
big
