

Retail

Zummo takes another step forward in its aim to bring fresh fruit to the consumer in a ready-to-eat format. The company's retail range expands with Isla by Zummo, a solution designed for the retailer and

conceived to be used by the consumer. Shopping experience, safety, speed and high profitability make this product a must for any supermarket or grocery shop.

Isla

Fresh cutted pineapple ready to eat

Isla by Zummo provides consumers with a unique experience, by quickly and easily making a fresh pineapple ready to eat anywhere.

You will be creating new sensations for your customers while guaranteeing the very best quality of your service. Isla will boost your earnings by conferring high technology to your business.

Isla has arrived to give an about-turn to the way we eat natural pineapple. **Why will it be a success in your business?** Because it is quick, easy to use, safe and profitable.

In just 15 seconds Isla cuts off the crown, removes the peel and the core of the pineapple, and then cuts it into slices, chunks or sticks. **Fresh and ready to go!**

1. Cutting options

Isla provides 3 cutting options: slices, sticks or chunks, which will be established by the operator according to requirements. This machine is adaptable to different sizes. Getting the most out of pineapples.

Make your business stand out from the rest by offering innovations to your customers.

Cutting options

2. Compact design

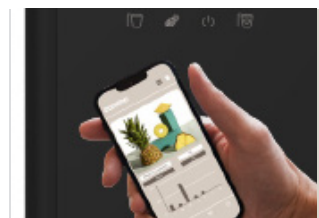

Isla has a solid, compact design. It comprises a single block to guarantee that it remains sealed to prevent any foreign bodies from entering.

Compact design

3. Zummo Cloud

With Zummo Cloud easily and effectively manage where your machines are. Know the status of your machine at all times in order to provide your customers with the very best service and interact with Isla to change its status wherever you may be.

Zummo Cloud

4. Isla is customisable

You decide what your Isla will look like. Our new model will quickly and easily adapt to your establishment. Customise the graphics and stickers to fully match the aesthetics of your business.
