

**LUMBINI**  
TEA VALLEY  
CEYLON

*The earth- robust and untainted  
The air- pure and invigorating  
The water- fresh and rich  
The light- new and bright,  
shaped by the soul and care of the people,*

*Dayapala  
Jayawardhana*  
(Founder)

Lumbini Tea Garden 1975  
Lumbini Tea Factory 1984

In 1975 along the valley of Lumbini, Dayapala Jayawardana planted his first tea field. His vision was to create a great tasting tea that reflects the true character of the tea leaves and the land.

---

**CHAMINDA JAYAWARDANA** Founder - Dalu™, Lumbini Tea Exports (Pvt) Ltd  
Co-Founder - Giri™, Kalé™  
Giri Tea Marketing (Pvt) Ltd  
Nature's Beverages Pty Ltd

Managing Director - Lumbini Tea Group

Chaminda brings a legacy in tea that was passed on to him from his father who first broke ground in the Lumbini valley. He refined his experiences in the private sector before returning to his first love-tea. Chaminda's heart is to develop tea of the finest quality to touch the soul of the customer. He is the founder of the Dalu™ brand and is a pioneer of specialty teas, even being recognized with representative status by the advisory board of the American Specialty Tea Association. Over his two decades of experience, Chaminda has accumulated dozens of local and international awards for his efforts within the Lumbini Tea Valley.

**HARRIS UDDIKA MAHADIULWEWA** Co-Founder - Giri™, Kalé™  
Giri Tea Marketing (Pvt) Ltd  
Nature's Beverages Pty Ltd

Co-Founder/ Managing Director  
Giri Tea Marketing (Pvt) Ltd

Harris Uddika began his journey in the plantation sector at the tender age of 18. His expertise spanned many of the valleys of Ceylon and gained him the reputation of having a golden touch, being able to produce brilliant teas at different elevations. He is a double recipient of the Hayley's Group Chairman's Awards and was the first person to secure the Presidential National Green Award in the plantation sector, along with many other local and international awards. Harris Uddika is driven by the power of tea to refresh and bring life to people and has fallen in love with the art of growing and crafting tea. This passion is exemplified through the brands he co-founded, Giri™ and Kalé.™

(Read Harris Uddika's Profile)

KOSALA SAMARAJIWA Co-Founder / Managing Director  
Nature's Beverages Pty Ltd

Kosala began his journey in Ceylon and completed his education in the United Kingdom. His work experience spans various roles in the UK and Australia, giving him unique insights into using technology to reach niche markets and satisfy consumer needs. He brings a nuanced understanding of consumer behaviour and insights to the table that gives him perspective on how to connect people to the things they love using technology. Kosala's vision is to restore and re-ignite people's love for tea and bring new generations to a place where they can identify with and enjoy the restorative powers of tea.

[\(Read Kosala's Profile\)](#)

*All our efforts converge into a melting  
pot unique to the world.  
The Lumbini Valley.  
The finest teas in the world.*

These elements come together to create a cup of tea so exquisite, it distils the essence of its home, and moves the senses to an island paradise where every element fuse creating a cup of tea fit for a tea Lover.

The valley, it is here that the story of the world's finest tea begins... The valley is a place where the soil is uneroded and nutritious, with pure Oxygen rich air flowing in from 18900 acres of virgin rainforest Sinharaja (UNESCO world heritage site), and the warm ocean breeze wafts in from the Southern coast, while the Gin river famous for its precious stones flows through the valley below. The unique combination of atmospheres makes for one of the richest, unspoiled environments on the earth.

Every Morning at Lumbini starts in the same way. Tea pluckers awaken before the sunrise to collect the two leaves and a bud. Delicately selected and plucked by hand, these dew kissed leaves are the freshest, youngest fledging's nature has to offer, full of medicinal value, flavor, and refreshing taste that enters the cup, relaxes and invigorates the drinker. The leaves are then twisted using "Kithul" palm wood fitted rollers, and

rolled to perfection, maximizing twist and bringing out the natural essence from within the leaves. Once the natural essence of the laves is brought out, the fresh Oxygen rich atmosphere of the Lumbini valley comes in to play, developing flavor, aroma and richness, enhancing the wellness offered through the tea as the tea naturally Oxidizes.

We bring all these elements together to create our traditional and modern recipes of tea. Built on the Lumbini valley's expertise in the fine art of black tea manufacturing, to create different consistencies, aromas, flavors and flowery notes offering our connoisseurs the finest variety and most refined tea experience. Our Tippy teas made of only tea tips, are some of the finest teas in the world.

We are also expanding our grove, and have a new crop of rare white teas, and are perfecting the art of refining their taste in the Lumbini valley. On the edge of the forest we have begun a new phase in the Lumbini valley story, our organic tea farming project - Kalé™ One of our unique innovations is our handspun tea, a patented innovation that adds our creativity and craftsmanship into every leaf.

One of our unique offerings in the world of tea is our flavored teas, they stand above because they stay true to using the finest and the freshest Lumbini valley teas, where the flavor of the tea accentuates the fruity, flowery and spicy flavors that you love, while preserving the true character and value of the tea. It is this sense of artisan craftsmanship that has inspired us and pushed us beyond.

To unite the elements of earth, air, light, and water to produce a cup of tea that reflects the land it came from and the heart and feelings of every person involved in the process of creating it. We are looking to create a better world in and outside the cup.

Within the cup we have preserved perfection, as close to the first 'untainted' cup of *Camelia Sinensis* drunk 5000 years ago. Preserving it from the industrialization and commoditization of tea which has polluted the air and ground water in many tea growing areas globally.

The two leaf and a bud concept which preserves the tea and the plant has also been lost. Mechanical harvesting gathers leaves older than the Polyphenol rich two leaves and the bud.

We made a stand to stop using pesticides, weedicides and fungicides, relying instead on sustainable agriculture practices. We have also preserved the valley by working with the community. Ensuring our tea bushes breathe the cleanest oxygen rich air and lay roots in the purest soil. This effort will preserve the valley and the forest for years to come, and give us at Lumbini valley the scope to produce and refine teas that are elixirs for the body and the soul, and will take the Lumbini valley to the world.

But at the Lumbini valley we are seeking to preserve the pristine environment tea was first enjoyed in 5000 years ago, and the practices of sustainable tea growing.

Outside the cup we are trying to create a better world built around tea. We have done this by giving back to the community for their partnership with us in preserving the valley and creating the finest teas in the world.

Our CUH TEA CHARITY FOUNDATION (GUARANTEE) LIMITED uses 10% of our net profits to develop the community and ensure they continue to grow with our teas. We have also been recognized in over ninety-five local and international accolades, affirming that our sense of artisan craftsmanship and sustainable growing practices are a benchmark to tea producers around the world.

**CORPORATE SOCIAL RESPONSIBILITY**

CUH Tea Charity Foundation, was set up with an aim to transform the Lumbini valley, through sustainable means, while ensuring the people of the valley are also provided with opportunities to reach higher echelons in life. Started in the year 2017 CUH Tea Charity Foundation was set up by four founders, Chaminda Jayawardana, Harris Uddika Mahadulwewa, Utako Yamada and Kosala Samarajiva. Functioning alongside the Lumbini Tea Valley operations CUH Tea Charity Foundation, ensuring a sustainable growth in the valley with special focus on the tea farming community.

CUH is based upon five pillars.

1. Promotion of regenerative farming
2. Contribute towards building and fostering a synthetic free environment.
3. Developing a brand based on cottage industries in the valley through a global platform
4. Provide & care for those in need
5. Identify, develop and support talent to reach their full potential

CUH's philosophy is to enable the community in the Lumbini valley while promoting sustainable development and protection of the environment. This vision is carried out with adherence to various activities and awareness programmes that seek to establish both short term and long-term positive impacts on the Lumbini valley. CUH has over the years mobilized its resources to uplift the community through various programmes such as donations, children's programmes, school activities, women empowerment initiatives, religious activities, reforestation, home gardening initiatives, planting native plants in the valley

and plantation of trees such as Kumbuk which protect waterways and increase the ability of the soil to retain water alongside a host of others. Of its five pillars, two deal with protecting the invaluable ecosystem of the Lumbini valley and the other three is dedicated exclusively towards the upliftment of the community. The emphasis on the people, is to in turn educate them to also become ambassadors and knowledge bearers of sustainable growth, while rising to higher stations of life through education. CUH Tea Charity programme is also dedicated towards helping those who are in need, such as elderly, orphans, those who suffer from illnesses, differently abled and most importantly single parent families often led by women. The programmes seek to instigate meaningful and sustainable growth in their lives by improving and supporting them to pursue their dreams. We also educate and promote adopting and growing the cottage industries which adheres to the traditional farming methods. This will serve to protect the environment while simultaneously providing a means of financial benefit through a global platform. The two pillars on protecting the valley, is done through effecting change at the grassroot level to adopt more environmental conscious farming practices, and using more modern methodologies to gain higher yields at the same time. We enable the farming community to maintain a dialogue with the top experts in the respective sciences and we encourage them pursue regenerative farming, which not only gains to seek from the land but to also contribute back to it. We also conduct regular programmes to see a synthetic free valley by educating the public of the better alternatives and benefits of being synthetic free.

LUMBINI  
TEA VALLEY  
CEYLON

LUMBINI  
TEA VALLEY  
CEYLON  
**DALU**  
*Pure Ceylon  
Lumbini Valley Speciality Teas*

In 1975 along the valley of Lumbini, Dayapala Jayawardana planted his first tea field. His vision was to create a great tasting tea that reflects the true character of the tea leaves and the land. To this day, his son, Chaminda Jayawardana & his team Dalu™ lives and breathes this vision by producing teas that showcase how each variety express itself when sharpened by the soil and the sun of Ceylon.

We use our expertise in the fine art of black tea making to produce this artisanal tea in our tea garden in Lumbini valley, which is

situated just below the world heritage site of Sinharaja Rainforest in Southern Sri Lanka. The Oxygen-rich rain forest winds flowing from Sinharaja along with the sea breeze making its way from the South coast, create a miraculous combination of winds to induce a unique flavor and an aromatic medium bodied tea which leaves a natural sweetness in the mouth. Master Tea Tasters commonly call this unique flavor as 'rainforest floral honey flavor'. We offer this distinct flavor for the tea lovers around the world through our brand Dalu.™

AWARDS FOR THE TEA SINHARAJA  
WIRY TIPS (FBOPF EXTRA SPECIAL)

*Pure Ceylon Signature  
Speciality Teas*

This unique wiry tea is crafted in limited quantities exclusively by our team of Dalu™ Tea Masters, in the valley of Lumbini. Pure, hand picked, garden fresh Lumbini tea leaves are used to produce this rare Sinhharaja Wiry Tips tea. This signature product has made Lumbini and Ceylon proud by winning many gold awards years after year at global competitions.

## THE SIGNATURE SELECTION FROM THE VALLEYS OF CEYLON

We, Chaminda Jayawardana and Harris Uddika Mahadiulwewa, discovered that we both shared a passion for tea, and it was this passion that brought us together as partners. As tea enthusiasts we travelled the world, promoting tea and educating people all over of its benefits. And we soon discovered despite tasting many great teas, the true character of Ceylon tea was lost for much of the world. As master tea makers we felt that we needed to bring back this taste to the world once more.

Thus, we set out to craft the true Ceylon tea, from the finest valleys of Ceylon. With our combined experience of more than five decades we handpicked the best valleys of Ceylon that has the perfect combination of clean air and rich soil to produce the best tea. Enriched with ideal conditions and crafted with our experience and attention have led to the creation of a true tea masterpiece. Full of Ceylonese character, richness and life, we present you the finest tea in the world, Giri.<sup>TM</sup>

The Kalé™ Organic Grow

*Kalé*

*Pure Organic*

The freshest tea in the world - this has been our vision at Lumbini Tea Valley for years, and we have taken many avenues to achieve this goal. Our latest initiative is the Kalé™ Organic Grow. This project began at the edge of the Sinharaja Rainforest in the valley of Lumbini. Here we cultivated the finest organic tea in the world aided by naturally fertile soil and a close proximity to fresh forest air. We are growing closer to the pure perfection of tea than ever before.

Our founders Chaminda and Harris Uddika's dream is to develop the Kalé™ family and give exposure to small scale organic farmers in Ceylon. They have set out to bring together farmers from across the valleys of Ceylon who resonate with their passion for tea and nature to create the diverse and unique characteristics of organic Ceylon teas and make their artisanal creations available to the world.

## NATURE'S BEVERAGES

The latest chapter in the Lumbini Tea Valley story begins on the shores of Australia and is a milestone in bringing the finest teas directly to our customers.

It has been our vision for some time to be able to deliver the finest tea experience directly to our customers' doorsteps through an online platform. This is why we endeavoured to create Nature's Beverages Pty Ltd. Our co-founders' intention was simple - to give our customers the finest choice in the teas they will enjoy, with the convenience of being able to order and receive their tea directly to their homes, from the comfort of their homes.

Adding to our founders Chaminda and Harris Uddika's decades of experience in creating the finest teas in the world is their co-founder Kosala Samarajiva. Kosala brings his experience of over twenty years in connecting people to the products they want through information technology, setting in motion a new chapter in their tea journey and the legacy of Lumbini Valley Teas.
