COMPANY PROFILE

Mr. Chongtong Xie
Chief Executive officer (CEO)

Our Vision: Be trustworthy

We are committed to earning the people's trust and ensuring their safety and security. We want to ease the frustrations of their everyday lives by providing safety for our customers and their families. We provide the ability for people to monitor their loved ones and cherished belongings from anywhere in the world.

Watashi is an expert in smart security and we strive to use our world class technology, local specialists and 24-hour service team to uphold security and safety for our customers.

Mr. Chongtong Xie
Chief Executive officer (CEO)

Our Mission

TCT group provides smart security solutions, with products ranging from Security Camera Systems (CCTV) to Security Alarm Systems. We focus on simplifying our customers' lives and allowing them to better take control of their own security and that of their local communities. We are also determined to deliver an efficient and caring customer service.

Our core values are safety, love, and simplicity. We offer a wide range of products that work together under the same integrated network to allow flexibility for our customers. From our wide product offerings, customers can choose the products that best suit their unique security needs.
