How to Unpack Your New Mattress

- 1) Carry the boxed mattress and place adjacent to where the mattress will be used.
- 2) Using a scissors, carefully cut the packaging tape at the top end of the box. Open the box flaps, and place the box on its side.
- 3) Slide the roll-packed mattress out of the box. Set the box aside, and place the packaged mattress on the mattress foundation or on your platform bed.
- 4) Carefully cut the outer plastic from side to side.
- 5) Remove the outer plastic material, and cut open the inner plastic wrapping, BEING VERY CAREFUL NOT TO CUT THE MATTRESS.
- 6) Unroll and watch your new mattress come to life. Allow it to remain flat while the foam recovers. (It may require 24 to 72 hours for the mattress to fully regain its shape, but you still can lie on it.)
- 7) Start bonding with your new mattress; you're going to be spending many happy years together.
- 8) SLEEP TIGHT!

SOON, VERY SOON you'll be sleeping comfortably
