

QUICK-CRATE®

The tightest box in the business

Aerospace Industry

Aircraft Parts Storage

Quick-Crate offers you a shipping/storage solution whether you are transporting refurbished parts or unique items such as airframe components, jet engine nacelles and simulators. We have designed and built Quick-Crates over 14 feet long and others over 10 feet high for airplane parts storage. We can accommodate most any size that you can request and can be tailored to fit the needs of military, commercial and general aviation.
