

# the pickle by Lobster model comparison

## the pickle by Lobster

Take your game to the next level by drilling with heavy top and backspin

The **pickle by Lobster** portable pickleball machine makes training easier while challenging players of all skill levels with up to 60 mph ball speed and unequalled spin. Imagine dialing in the perfect amount of heavy topspin or extreme backspin. Benefit from the random oscillation to improve your footwork and overall fitness.

### the pickle

random oscillation	horizontal
ball speed	10-60 mph
ball spin	top, back
ball capacity	125
shot intervals	2-10 seconds
elevation	manual, 0-50 degrees
power	battery
court time	2-4 hrs
weight	35 lbs

## the pickle two by Lobster

Easily practice forehand and backhand shots with two-line oscillation

Taking drilling to the next level, **the pickle two** offers an upgraded 4-6 hours of court time. The expanded oscillation includes 2-line, where the ball is delivered to two alternating spots on the court. We've also upgraded the elevation from manual to electronic. With heavy top or backspin, **the pickle two** offers spin capabilities superior to any machine on the market today.

### the pickle two

two-line oscillation	wide
random oscillation	horizontal, 2-line
ball speed	10-65 mph
ball spin	top, back
ball capacity	125
shot intervals	2-12 seconds
elevation	electronic, 0-50 degrees
power	battery
court time	4-6 hrs
weight	42 lbs

## the pickle champion by Lobster

Experience match-like play with pre-loaded drills and fully-random oscillation

Our most advanced machine, **the pickle champion by Lobster** is unmatched with its pre-loaded, six-shot drills based on common player types. With the fully-random oscillation, it's as if you are playing against another human as balls are thrown randomly throughout the entire court. Easily set endless options for personalized training with a push of a button on the touch control panel.

### the pickle champion

preloaded drills	6 drills
two-line oscillation	narrow, wide
random oscillation	horizontal, vertical
ball speed	10-65 mph
ball spin	top, back
ball capacity	125
shot intervals	2-9 seconds
elevation	electronic, 0-50 degrees
power	battery
court time	4-6 hrs
weight	44 lbs
