

# AI powered Safety and Security Company ArmorGIS Advances to Esri Partner Network Silver Program

- ArmorGIS announces advancement to the Silver Esri Partner program.
- RescueGIS will debut at the Esri User Conference July 11-14, 2023, booth number 2113.

**Los Angeles CA July 11, 2023,** — ArmorGIS has graduated to a Silver Partner within the worldwide Esri Partner Network. The newly released RescueGIS system will debut at the Esri User Conference July 11-14, 2023, at booth number 2113.

By leveraging the expertise of the Esri's partner network, ArmorGIS is positioned to provide AI powered safety and security systems worldwide.

RescueGIS delivers safety wherever you go, providing rescues in seconds and responders have a new source of intelligence. Newly available for Individuals, Smart Sites, and Smart Cities; are cloud-based, AI-powered security systems with live incident intelligence illustrated on smartphones. Powerful new personal safety and enterprise security capabilities are now available to everyone, and responder operations are elevated to an entirely new level of effectiveness.

The new approach to safety engages responders while it's still only a concern, taking rescue times down to seconds and authorities have a new source of live threat-location and incident intelligence. By coupling the eyes and ears of communities to advanced AI and GIS capability, emergency responder operations are taken to an entirely new level of effectiveness and new policing methods are enabled to improve neighborhood engagement.

"ArmorGIS's relationship with Esri has immeasurable value, starting with the Partner Network Program and Esri ArcGIS products. We are grateful for both, which were instrumental in developing and illustrating our incident intelligence" says ArmorGIS's CEO and founder Chad Ahrens. "
