

# Invisible Shields and **Visible Threats**

## First Person Protection and Every Second After...

Common and extreme violence protection, hidden in plain sight  
Lift for instant physical protection and know help is coming.

**Help is Coming and More Help If Needed...** The motion-activated system alerts people nearby of an emergency and those affected know help is coming immediately. If shield movement continues, the alert escalates to others such as On-Site Officers, Local Police, and 911 Dispatch. Settings are to your site requirements.

**Guided Escape...** Our mobile app provides guidance away from the danger zone with one big arrow or if X is displayed guidance to hide and protect.

**Empowerment...** Instantly accessible and mobile the protective equipment, enables those nearby to assist while being protected themselves. The shield is lightweight, allowing one arm free for locking doors or helping others to safety.

**Calm Training...** Training is done calmly with digital sitemap simulations and minimal hands-on movements. It's non-disruptive and accomplish in accelerated timeframes. Multiple simulated lockdown and escape scenarios are run in minutes, all at no cost, improving training and reducing security costs.

**Early Intervention and SEL...** Early intervention to de-escalate incidents before harm occurs is the ultimate goal. By adding equipment and advanced tech to SEL prevention methods, preparedness is achieved and optimal outcomes.

**Lower Costs...** Smart Shields are integrated with existing physical and digital safety resources, improving effectiveness and efficiency of the entire safety system as well as first responders. Let's get smart about safety and safety cost...

It's the instant physical and IoT/GIS electronic technology combination with mobility that makes a difference. Smart Shields are a comfort at all times and highly capable when needed. There is now assured protection and peace of mind; for parents, students, staff, and those accountable for safety.

More Safe, More Calm, and Less Cost...

## Safety Can Be Done Differently

Instead of Run, Hide or Fight... Protection is possible.

Run, Hide, ~~Fight~~  
Run, Hide, **Protect**
