

Groovy Girls Holiday Napkins

*This pinwheel napkin takes a little
patience, but the results are worth
the extra effort!*

 **Atkinson Designs**
one of life's simple pleasures

1. Fold corners in to meet at center.

2. Fold top and bottom to center.

3. Fold sides to center.

4. Reach inside and gently bring
the corner out to make a
point.

5. Bring the second point out.

6. Gently bring the remaining points
out as shown. I like to crease the
point upright and then fold it down
in the correct direction.
