

It's Hip to Change Your Zip! Here's how:

1. Cut off the top and bottom ends of the zipper.
2. Unzip the zipper and slide the zipper pull off.
3. Cut off about 1/2" of the zipper teeth on one side.
4. Slide the new pull about 1/2" up the other side.
5. Insert the side with the teeth removed.
6. Hold both ends and slide the pull up the zipper.

Mix and Match!

It's fun to combine Candy Color Zipper Pulls with Atkinson Designs 14" and 22" zippers.
