

## ROPE LIGHT 2.0

M AKTTEM  
D VERENA HENNING

ROPE LIGHT 2.0, a shorter version of the original design, contains of two flexible lighting modules. Pushing the boundaries of conventional lighting design, the filigrane pendant allows for a multitude of configurations that allow for various graphical shapes to be drawn in the space. Warm light shines from 360° customized LED bars to create a comfortable and unique mood. The new design is further driven by Hennig's love of material, performance and minimalism, and desire to form a connection with her customers to spark an immediate reaction to their playful nature.
