

BARRO DINING COLLECTIONS

M AMES
D SEBASTIAN HERKNER

Barro is a range of unique and high-quality ceramics, manufactured for ames according to traditional pottery crafts in small, family-run manufacturer located in the Colombian province of Tolima. The ceramics are created entirely by hand. For his designs, Sebastian Herkner has taken inspiration in particular from the archetypal forms of exhibits shown in the "Museo del Oro", in Bogotá. The result is a range of vases, bowls and pots that can also be used as plant containers.

The barro objects are heat proof and can be used both indoors and outdoors.

MATERIAL

BLACK TERRACOTTA

BARRO PLATE
Large: D 11.4" x H 1.2" Decor 3
Medium: D 10.2" x H 1.6" Decor 2
