

CARIBE DOUBLE CHAIR

M AMES
D SEBASTIAN HERKNER

Cheerful and fresh colourways as vivid as the caribbean coast of colombia.

Sebastian Herkner designed the caribe collection after visiting Santa Marta on the Caribbean coast. Inspired by the “momposino” weaving technique, typical for this region, Herkner, Ames and local craftsmen started a collaboration. The new furniture family is suitable for outdoor use and consists of a dining chair, a lounge chair, a high and a low side table and a basket table. A bench, and a 2-seater »vis-à-vis« and a dining table will be released at the Salone del Mobile 2017
