

BLUMENAMPEL

M ATELIER HAUSSMANN
D ZASCHO PETKOW

The Hanging basket "Blumenampel" by Zascho Petkow is a hanging room object made of powder-coated round tubes. Birgit Severin's Ashes II Vase fits perfectly into the surrounding bars of Blumenampel, even though both developed their projects independently. With their dark character, both objects embody a pre-industrial romanticism that emphasizes the beauty and color intensity of the plants.

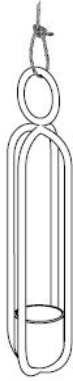

Blumenampel is available with a standard pot or with vase Ashes II - mid or vase Ashes II - early
