

HERRENBERGER STOOLS

M ATELIER HAUSSMANN
D ANDREAS HAUSSMANN

The Herrenberger stool series is inspired by the designs and models of industrial furniture of the '30s, typical for strength and functionality. Simple, clear, and timeless, the tubular steel frame is secure and robust on 4 legs. Herrenberger's clean appearance can be used in almost any home or office environment. The seat is made of solid wood shaped to ensure the right comfort.
