

LACKAFFE

M ATELIER HAUSSMANN
D THESENFITZ & WEDEKIND

Lackaffe is a height-adjustable trestle made of steel, and flexible to use for a wide variety of tabletops and shelves. Lackaffe is primed and powder-coated. Thesenfitz & Wedekind called themselves lucky to find something that perfect in form – something that can only be found, not invented. The brothers Andreas and Rainer Hausmann felt the same. They made the trestle fashionable again by manufacturing it in the traditional way with small Berlin craft producers.

W 16.5" x H 26" – 38.6"
D 15.4" for sideboards
D 18.9" for slender shelves
D 23.6" for large tabletops

MATERIAL

FLAT-ROLLED, POWDER COATED STEEL
AVAILABLE IN
ALL CLASSIC RAL COLORS
